Morning Oregonian.

VOL. XXIII. PORTLAND, OREGON, WEDNESDAY, SEPTEMBER 19, 1883. NO. 7290.

EASTERN DISPATCHES.

New Jersey and New York Republicans in Convention.

SOME MORE GOSSIP ABOUT S. J. TILDEN

An Archbishop Interviewed—Greely's Probable Course of Action—Villard's Personal Loan—News in General.

New York Republican Convention.

SARATOGA SPRINGS, N. Y., Sept. 18.—The attendance at the republican state convention was not so large as usual. The state committee met at 8 o'clock this evening. The committee was called to order by Chairman John F. Smythe. Upon roll call only members answered to their names. The committee adjourned until 10 P. M. No programme for action is yet indicated. The name mentioned in connection with the temporary chairmanship is that of Senator W[illegible]. Very little disposition is shown by prominent republicans present to discuss the probable action of the convention. The purpose seems to be to permit the convention to take its own course in reference to the formation of a ticket. The whole drift of sentiment appears in favor of the renomination of the present state officers and Cox as [illegible]. Thomas Platt telegraphs to-day cancelling his engagement for rooms. Chauncey M. Depew, Whitelaw Reid and George William Curtis are among the prominent delegates. There is no reason to believe that any strife will arise in the convention over any point.

New Jersey Republicans.

TRENTON, N. J., Sept. 18.—The Republican delegations all arrived by 10 o'clock, and the contest started this morning where it left off last night. Judge Dixon is largely in the lead, although the friends of ex-Congressman Hill are many, and are making an active canvass in his behalf. A movement has just been started in favor of Secretary Frelinghuysen that promises to accomplish something. A dispatch was received from George Jones of the New York Times stating that Frelinghuysen would accept and advising his nomination. William Walter Phelps will be temporary and probably permanent chairman. The platform will advocate high tariff, indorse the present national administration, oppose convict labor where it conflicts with skilled labor and will strongly favor taxation of railroads after the manner of taxation of personal property.

TRENTON, N. J., Sept. 18.—The republican state convention assembled, and William Walter Phelps was chosen temporary chairman. After appointing the usual committees the convention took a recess until 8:30 P. M.

TRENTON, N. J., Sept. 18.—Judge Jonathan Dixon was nominated for governor on the first ballot.

Gossip About Tilden.

PHILADELPHIA, Sept. 18.—[Special.]—Press' New York special: After having seen Tilden and studied his methods of doing business I am well convinced that he is as capable now of enduring a canvass as in 1876. It is reported that he will leave New York this week on the [illegible] for the south, going possibly as far as Rio de Janeiro. Tilden's movements are watched with the keenest interest by New York politicians. Notwithstanding Dana's persistent assurance that he will not accept the democratic nomination for president, democrats in New York, particularly the county democracy, have the nerve to assert that the old man is playing persistently and studiously for the great prize. Dana keeps insisting that Tilden is not a candidate, mainly because he is one himself, and working to have Tilden throw his influence to him. Watterson is now here at work for McDonald, but he would be delighted with a ticket made up of Tilden and McDonald.

Greely's Probable Course of Action.

NEW YORK, Sept. 18.—[Special.]—The *Herald* says: All discussion of Greely's prospects up to the present moment strengthens the supposition that he left his polar station before the summer closed. Perfectly unacquainted as he was with all that is known of the ice condition of Smith sound, it is highly improbable that he would have tarried at his station until fall sealed his water communication with Littleton island. The only intelligent course seemingly left him when the first weeks of August passed without arrival of relief, was to commence his retreat in boats southward, and to push it as vigorously as possible, which the *Herald* thinks he has done. George Kennan of Washington says it is not beyond the range of improbability that Greely, upon arriving at Littleton island and learning the state of affairs, attempted to reach Tessuisak or Upernavik after departure of the Yantic for home with all members of the relief expedition on board.

Homeward Bound.

DULUTH, Minn., Sept. 17.—A portion of the Villard special, consisting of Grant, Fred Billings, Wm. M. Evarts, G. W. Cass of New York, General John Newton, the great engineer of Hell Gate fame, of New York and Jesse R. Grant of New York, arrived to-day in a special train and were shown about the city in a quiet way by a committee of citizens. They leave for St. Paul to-night.

ST. PAUL, Sept. 18.—General Grant and Wm. M. Evarts passed through this city on their return from the Northern Pacific opening. Grant was driven to Fort Snelling. During an interview with a *Dispatch* reporter, he is credited with stating that he has never come out in favor of Roscoe Conkling or any one else, as reported in the St. Louis *Republican*, for the presidency, but that he would like to see Conkling get it. They left this afternoon for Chicago.

Archbishop Feehan Interviewed.

CHICAGO, Sept. 18.—"There has been no positive selection for the pastorate of St. James church," said Archbishop Feehan to-day. "Of course I have partially determined who it will be, but as nothing might arise to change my plans, and I think it best not to have any name published. There will be no immediate change, I think, as Bishop Riordan will not leave for California for two or three weeks. He has his own time, and will go when he gets his matters arranged and has an opportunity to take leave of his friends. As regards my trip to Rome, I am very busy, as you see, and will be compelled to pack up and go at the last moment. The meeting is not set for any date, only some time in November, and will be composed wholly of American archbishops to consult the pope on ecclesiastical affairs in this country."

Knights of Pythias.

LOUISVILLE, Sept. 18.—The grand lodge of Knights of Pythias of Kentucky was in session in the chamber of the board of aldermen to-day. Mayor Jacobs delivered an address of welcome. The doors were then closed. The morning was taken up in reading credentials of the members. In the afternoon session secret business of a routine character was transacted. To-morrow a grand parade takes place, followed by a prize drill contest in the park and, during a part of the exposition, to be participated in by Kentucky divisions and others from Kansas, Ohio and Indiana. Much interest is awakened in the drill and a great crowd will witness it.

Price of the "Times" Reduced.

NEW YORK, Sept. 18.—The *Times* celebrates its thirty-second birthday by reducing its price from four to two cents. The price of the Sunday edition is reduced from five to three cents. The size of the sheet is not reduced. The *Times* says this important change is made because the *Times* wishes to increase its daily readers, a large class of men and women who do not like to pay four cents for their morning paper. At this age and in this republic there should be no aristocracy of newspaper readers. A journal which is rich and well-to-do and is read because of its excellence, should be read by the poor because of its cheapness.

A Magnificent Altar.

BOSTON, Sept. 18.—[Special.]—The new high altar was unveiled in the cathedral to-day and high mass was celebrated thereon. The structure is one of the most magnificent specimens of ecclesiastical architecture in the world. It is composed of Mexican statuary marble, with mosaics and panels of Mexican and Italian marble. It is surrounded by pillars of California onyx and also has panels of Mexican onyx. The cost of the altar is $100,000.

Christian Convention at Chicago.

CHICAGO, Sept. 18.—The Christian convention, under the guidance of D. L. Moody, the evangelist, began a three days' session here this morning. About 2000 persons, chiefly ministers and evangelists, were present. The convention will be devoted wholly to the consideration of methods for carrying on the work of evangelization throughout the country, especially in large cities during the coming winter.

American Economists in Council.

CINCINNATI, O., Sept. 18.—Between 600 and 700 miners from Hocking valley, with a delegation from about forty clubs from other parts of the state, arrived at noon to attend the state tariff convention this afternoon under the auspices of the association of American economists. A state organization will be effected and addresses made by Judge Lawrence, General Green B. Raum and others.

The Florida Ship Canal.

NEW YORK, Sept. 18.—At a meeting of the stockholders of the Florida Ship Canal and Transit Company yesterday the board of directors were authorized to make a contract for the construction of a canal, work to be started at the earliest possible day. The eastern terminus of the canal will be in the vicinity of the mouth of St. Johns river, and the canal will run across the peninsula.

Villard's Personal Loan.

NEW YORK, Sept. 18.—[Special.]—*Wall Street News*: "It was denied Saturday that a loan of $1,100,000 had been called for by a Boston house on the Oregon and Transcontinental Company. We understand that it is so. The money was not borrowed by the Oregon and Transcontinental Company but by Villard personally. The loan comes due Thursday, the 20th instant. It is $1,100,000 in amount."

Compromised.

BOSTON, Sept. 18.—The contested will case of Allen Curtis has been compromised and the suits discontinued. The widow receives $250,000 instead of $50,000, according to the provisions of the will, the remainder of the property being distributed among other heirs. The estate is valued at about a million and three-quarters.

Marriage Annulled.

NEW YORK, Sept. 17.—Judge Donohue of the superior court has annulled the marriage of William Turk and Amelia M. [illegible]. Turk claimed that he was compelled to marry Miss [illegible] by threats of her father and brother that they would shoot him if he refused.

The Corean Embassy.

NEW YORK, Sept. 18.—The Corean embassy were received at the Fifth Avenue hotel this morning by President Arthur. Prince Min Yong Ik made an address which was replied to by the president.

Declines to Be a Candidate.

[illegible], Sept. 18.—Henry L. Pierce has written a letter declining to be a candidate for governor before the republican convention to-morrow. It causes great surprise.

Sir Charles and Lady Wolseley.

NEW YORK, Sept. 17.—Sir Charles and Lady Wolseley arrived to-day from England. Lady Wolseley is a daughter of [illegible] Murphy of San Francisco, made marquis by the pope.

Rates Advanced.

NEW YORK, Sept. 18.—Brown Bros. & Co. have advanced the rates of sterling exchange to $4.83@4.86.

WASHINGTON NEWS.

REPORT OF THE PENSION COMMISSIONER.

WASHINGTON, Sept. 18.—Of the appropriation of $100,000,000 for the payment of pensions for the fiscal year ended June 30, $30,000,000 remained unexpended and was reappropriated for the present fiscal year, making the sum available for expenses in the pension bureau about $1[illegible]. Commissioner Dudley expresses the opinion that there will be another large surplus at the end of the present fiscal year. In that event he will ask to have the surplus reappropriated and expects to be able considerably to reduce the amount required for the fiscal year beginning July 1, 1884. The commissioner says that notwithstanding the probable expenses and this large surplus, the number of pension claims passed upon the present year will show a large increase over last year. He attributes the saving to the character of the cases and the efficiency of the examiners. Commissioner Dudley is also of the opinion that he will be enabled to reduce the number of employes in the pension bureau from 1500 to 1[illegible].

ILLICIT WHISKY INVESTIGATION.

The Philadelphia mint has been authorized to purchase 50,000 ounces of silver for coining into dimes.

Commissioner of Internal Revenue Evans received to-day a report from Revenue Agent Powers, who has been investigating alleged seizures of illicit stills in South Carolina. The report says the charges of fraudulent practices, so far as it relates to officers of the internal revenue service, is without foundation.

The Corean Embassy.

WASHINGTON, Sept. 18.—[Special.]—Officers in charge of the Corean embassy do not seem to know exactly what to do with them and the programme of the embassy itself does not appear to be well defined. Persons familiar with Corea do not attach much importance to the visit of the embassy and do not see in what respect the United States are to be benefited by it. Japan and China can furnish the petty country with all the supplies which its scanty population requires and there are probably few products of the United States which could profitably be sent there. Some practical diplomats think that the present friendly feeling between this country and Corea is little more than an exhibition of Oriental diplomacy from which no practical results are to be expected. Very probably the only result of it may be to create a new office, that of minister resident to Corea.

Sharon Grows Indignant.

WASHINGTON, Sept. 17.—Senator Sharon has arrived here. To a gentleman who called on him this evening and showed him a telegraphic account of the marriage agreement which, it is alleged, was entered into by him with Miss Hill, as printed in San Francisco, Senator Sharon, with a very great deal of emphasis, said that the alleged agreement was a forgery. "I never wrote that nor anything like it, in my life. If there is any such paper in existence it is a forgery. No, sir, the whole story is a malicious and unmitigated lie. It is a penitentiary offense, and I will see to it that the man who forged that paper goes there. As for the woman, I don't care to say anything about her at this time. But no matter; at a future time I may say something about her."

Discussing Greely's Situation.

WASHINGTON, Sept. 18.—Secretaries Chandler and Lincoln were in consultation to-day referring to the sending of relief to the Greely party. It is impossible at this writing to state positively what conclusion was reached, but it is understood that information has been received that the Greely party is supplied with provisions sufficient to sustain them for over a year yet, and there is consequently no necessity for starting a relief expedition this fall. Another consultation will be held this afternoon, at which Dr. Bessels will be present.

The Hill Investigation Report.

WASHINGTON, Sept. 18.—The report of the committee appointed by the secretary of the treasury to investigate charges against Supervising Architect Hill was given out for publication to-day. Some of the findings of the committee are severe on Hill, and his resignation is freely talked of.

Another Bond Call.

WASHINGTON, Sept. 18.—The secretary of the treasury will probably make another bond call Wednesday or Thursday. It is thought the amount will be $15,000,000.

RAILROAD RUMBLINGS.

DISCOURAGING OUTLOOK FOR THE MANITOBA COUNTRY.

NEW YORK, Sept. 18.—[Special.]—Grave rumors are circulated here respecting the success of the Canadian Pacific. The statement is made that the exodus from Manitoba so far this season has reached an alarming proportion, and that emigrants from the province exceed the number of immigrants into it. This appalling fact is not denied even by railway authorities. Those who have returned here say that the cold in winter is so intense that laborers especially cannot leave their fires to go out and shovel snow, and therefore retailers cannot sell enough to pay expenses during the winter months. Again, the heavy freight demanded by the Canadian Pacific railroad of one cent per ton per mile on coal and grain prevents farmers from obtaining any profit from the sale of their grain for export, and coal, an article of prime necessity in such a climate, is so enhanced in price by the cost of transportation that living there is out of the question for people who are poor and who would go there. These freights are the cheapest of their charges and as they have sole control of all freights their charges are very enormous.

MEETING OF PASSENGER AND TICKET AGENTS.

CHICAGO, Sept. 18.—The meeting of the General Passenger and Ticket Agents Association of the United States began quarterly meetings here to-day. There was a large representation from roads from all parts of the country. The session will not be an extended one. A resolution reaffirming the rule providing that passengers be not allowed more than 250 pounds of baggage free, was passed, and a motion to reaffirm and return to the schedule dates on all lines represented in the association October 1, and thereafter maintain them rigidly, passed without dissent. The association continues in session to-morrow.

RESTRAINING ORDER ISSUED.

LITTLE ROCK, Ark., Sept. 18.—In the United States court to-day Judge Caldwell issued an order restraining the Memphis and Little Rock railroad from discriminating against through freight or passengers shipped over the St. Louis and Texas railway in Arkansas. The order is issued in consequence of circulars forbidding recognition of through freights marked via Brinkley, where the Memphis road is crossed.

THE TURF.

FIRST DAY AT BOSTON.

BOSTON, Sept. 18.—First day of the special September meeting. Track fast.

Free for all pacers—Richball won, Flora Belle 2d, Westmont 3d. Time, 2:17, 2:17¼, 2:19¼, 2:17¼, 2:19¼, 2:2[illegible].

Class 2:26—Modoc won, [illegible] 2d, Index 3d, King Almont 4th. Time, 2:22¼, 2:20¼, 2:19¼, 2:20¼.

It was rumored on the ground that the car in which Jay Eye See was shipped from Providence had met with an accident and that the colt had been injured. This was subsequently disproved, however, by Mr. Case, who exhibited the horse on the track, explaining that the car in which he came from Providence was somewhat over the regular height and brushed the top of a bridge in transit. The colt was not injured in the slightest degree. He received quite an ovation from spectators.

A BIG EVENT.

NEW YORK, Sept. 18.—The executive committee of the National Horse Breeders Association has decided to formulate a programme for races at Charter Oak park, Hartford, Connecticut, for stakes opened in 1881, 1882 and 1883. There were 150 original nominations. Final payments in all were due the 11th inst. and there were only five of the ten stakes on which there were more than one final payment. These five will be trotted for Tuesday, Wednesday and Thursday, the 3d, 4th and 5th of October. The stakes will amount to $5000. More final payments would be received but the name of a few phenomenal horses figured in the list of nominations, and one of the owners excepted. He had the greatest confidence in his horse, but did not care about risking his entrance fees.

ST. JULIEN AND JAY EYE SEE MATCHED.

NEW YORK, Sept. 18.—[Special.]—*Herald*: A match has been made for $5000 between Jay Eye See and St. Julien, to be trotted over the Gentlemen's driving park, Fleetwood, September 29. This will be the greatest match race that ever took place, Jay Eye See having a record of 2:10¾ and St. Julien 2:11¼. St. Julien is now at Fleetwood, preparing for the race. His driver gave him a mile in 2:17, another in 2:17¼, and a third in 2:17¼ yesterday. St. Julien remains in fine fix, and Hickok thinks the race with Jay Eye See will be a grand one if both horses are up to the correct pitch.

AT SHEEPSHEAD BAY.

SHEEPSHEAD BAY, Sept. 18.—Three-quarters, all ages—Princess won, Weasel 2d, Hickory Jim 3d. Time, 1:19¾.

Mile—Breeze won, Brad 2d, Vibrator 3d. Time, 1:47.

Mile and three-eighths—Referee won, Euclid 2d, Amazon 3d, Gen. Monroe 4th. Time, 2:[illegible].

Mile and one-quarter—Edwin A. won, Helen Wallace 2d, Heel and Toe 3d. Time, 2:1[illegible].

Steeple chase, short course—Abraham won, Bridecake 2d, Charlie Epps 3d. Time, 5:08.

WAR OF COLOR.

Threatened Uprising of the Negroes—Great Excitement Among the Whites.

GALVESTON, Tex., Sept. 17.—*News* Longview special says: A reign of terror prevails in every portion of the county except perhaps [illegible], from which place there is no report. The excitement is due to a raid upon the whites supposed to be contemplated by the negroes. White farmers have their wives and children in houses and are holding guard over them. In some communities little sleep has been had since Friday night. Haggard faces with looks of fear or determination are seen everywhere and betoken the extremities produced by the blood curdling reports brought in by scouts. Hundreds of countrymen in Longview to-day on returning to their homes carried all the arms and ammunition obtainable. The whole trouble has arisen from threats and apprehensions of a few misguided persons of both colors, whose source is not as yet cleared and is not known by the mass of negroes. There are indications that as much fear has been excited among the latter as among the whites. However this may be, people have been carried to such a pitch of excitement it is certain that should a white person be molested the bloodiest tragedies will be enacted ever known.

SPORTING NOTES.

HANLAN HUNTING A RACE.

CHICAGO, Sept. 18.—Hanlan arrived here from St. Louis this morning for the purpose of meeting E. T. Platt, representative of Laycock, the Australian sculler, with a view of arranging a match in Australia, but Platt had been called to New York on business, whither Hanlan goes this evening. An accident by which Laycock broke his leg will postpone any negotiations for a race.

LUNDBORG'S PERFUMES,
EDENIA AND MARECHAL NIEL ROSE.

FOREIGN NEWS.

The Slayer of Carey Safely Placed in an English Prison.

A GREAT BATTLE FOUGHT IN ASHANTEE.

Terrible Tale of Shipwreck—The Coming Meeting of American Bishops—A Day's Doings in the Old World.

ENGLAND.

CAREY'S SLAYER IN ENGLAND.

LONDON, Sept. 18.—O'Donnell, murderer of Carey, was landed at Southampton at 9 o'clock this morning and was placed on board a train for London. The train arrived at Vauxhall at noon, where the prisoner was met by a large force of police and escorted to a prison van and then, under escort of police, was driven to the Millbank jail.

LONDON, Sept. 18.—It has transpired that O'Donnell, after shooting Carey, said: "Shake hands, Mrs. Carey. I had to do it," not "I did not do it," as first reported. It is understood that Mrs. Carey offered evidence of a most astonishing nature which she declares will clear her husband's character. She has handed letters to the authorities which include correspondence of members of parliament.

LONDON, Sept. 18.—The train with O'Donnell arrived safely. Extraordinary precautions were taken to guard him. He was taken under a double escort to Millbank and placed in a cell. Subsequently the prisoner was taken to Bow street and charged with murder upon the high seas. At the request of counsel for the crown the prisoner was remanded for a week to await the arrival of witnesses.

LONDON, Sept. 18.—The prisoner gave his name at Bow street as Patrick O'Donnell, though he is described in the charge sheet as Michael O'Donnell, puddler of Gethore, county Donegal. He will have able counsel, steps being taken to secure the services of a well known Irish member of parliament. The police are extremely active in the [illegible] quarters of London to-day, making inquiries as to what connection, if any, O'Donnell has with Irish secret societies. Millbank prison has been placed under extra guard, as when the dynamiters were prisoners.

McDERMOTT DISCHARGED.

LIVERPOOL, Sept. 18.—James McDermott was before the court to-day and discharged, the evidence against him being deemed insufficient.

BURNED LONGO.

LONDON, Sept. 17.—A member of Henry M. Stanley's party arrived at Madeira and reports that the French burned Longo, because the natives refused to sell certain territory.

IRELAND.

OFFICIAL CHANGES IN IRELAND.

LONDON, Sept. 17.—The lord lieutenant for Ireland has issued an order abolishing the office of special resident magistrate for Dublin, and appointing four divisional magistrates who will direct the movements of resident magistrates and police.

ITALY.

AMERICAN BISHOPS AT THE VATICAN.

ROME, Sept. 18.—Extensive preparations are making for the reception of American bishops at the Vatican in November. There will be a series of reunions, at which Cardinal Simeoni will preside and at which questions concerning the influence of the Catholic church in America will be discussed. The main object of these meetings will be to adopt measures for the reorganization of the Catholic church in America according to canonical law, and to bring it into closer communion with the Vatican. Cardinal McCloskey will be invited to attend some meetings at which Irish agitation will be discussed. All obstacles to the appointment of a Russian envoy are being removed, and it is expected that representatives of Russia will arrive in October.

DENMARK.

LUNCH WITH GLADSTONE.

COPENHAGEN, Sept. 18.—Members of the royal family of Denmark, with their guests, will to-day lunch with Gladstone on board his steam yacht.

COPENHAGEN, Sept. 18.—After entertaining the Danish royal family at lunch Gladstone sailed for England.

SWITZERLAND.

THE NATIONAL PEACE AND LIBERTY PARTY.

GENEVA, Sept. 18.—The International League of National Peace and Liberty demand neutralization of explored and unexplored territories of the Congo river and the creation of a permanent tribunal of arbitration for the settlement of all difficulties arising from the execution of a treaty to that effect, which it is proposed shall be elaborated by the international congress. A resolution will be forwarded to all powers and legislative bodies of Europe and America.

GERMANY.

TROOPS INJURED.

MAGDEBURG, Sept. 18.—During a cavalry charge in the German military manœuvres to-day many troops were injured owing to the blinding dust.

AFRICA.

GREAT BATTLE IN ASHANTEE.

DURBAN, Sept. 18.—A battle in Ashantee resulted in the defeat with great slaughter of the forces of King Koffee Kalcalli. The king fled to Coomassie his capital after the engagement.

SURRENDER OR BE ARRESTED.

DURBAN, Sept. 18.—The cape government has sent its ultimatum to Cetewayo demanding the surrender of himself and to follow us within ten days. If he fails to do so troops will be sent to arrest him.

CANADA.

TERRIBLE TALE OF SHIPWRECK.

HALIFAX, Sept. 18.—Capt. Alfred Gueston of the bark Brittanic, which washed off coast Monday last, tells a story of fearful suffering. They were on the wreck from Monday until Tuesday afternoon, during which time the gale was blowing and all hands were compelled to remain on deck exposed to the fury of the storm. Finally they took to a small raft, but hardly had the people got on this when a heavy sea washed off every soul and the captain and eight men only regained their positions. During the night and the following morning five others were washed off in a similar manner, leaving only four survivors, who were rescued by a boat from shore. Thirteen perished, including the wife and four children of Captain Gueston, all natives of England. Two of the captain's children were picked up but died in a few minutes either from fright or from exhaustion.

THE EXCHANGE BANK FAILURE.

MONTREAL, Sept. 17.—The highest offer at close to-day for Exchange bank stock was 60 per cent par value. Four local banks, the City and District Savings, Merchants, Federal and Bank of Montreal advanced $600,000 some time ago to help the institution. The management showed large profits made but they are locked up with the capital in active assets. A feeling prevails that creditors will be paid in full.

CATTLE DROWNED—HOUSES INUNDATED.

HALIFAX, Sept. 17.—A number of cattle were drowned on Sable island during the gale of August the 24th. Several places were inundated and some buildings were damaged.

CHINA.

THE FRANCO-CHINESE DIFFICULTY.

LONDON, Sept. 17.—Much anxiety continues at Canton. It is considered probable that in case of another attack on the foreign concessions, the Chinese troops on the gunboats there will make common cause with their countrymen. One hundred British soldiers are kept at Hongkong ready for action in case of an emergency.

HONGKONG, Sept. 18.—The disagreement between the French military and civil authorities has reached a crisis. Dr. Harmand, the French civil commissioner for Tonquin, having relieved General Bouet of his command and appointed Colonels Bichot and Badens to share it equally, General Bouet will return to France immediately. The French outposts at Palan are menaced daily and will probably withdraw, as the place is scarcely tenable. In the recent battle the Black Flags fought with great bravery.

PARIS, Sept. 18.—A Hong Kong dispatch says 3000 Black Flags defend Sontay.

The Chinese at Foo Chow are restless and hostile to Europeans. A British gunboat has been ordered to anchor opposite the concession.

A correspondent asserts the story that the differences between China and France might be submitted to the joint mediation of England and America are absolutely unfounded.

LONDON, Sept. 18.—Another Hong Kong dispatch says General Bouet is nominally conveying messages to France from Dr. Harmand.

The Chinese press insists that the Black Flags were victorious in the recent fight.

PARIS, Sept. 18.—Marquis Tseng, Chinese ambassador, had a conference with Jules Ferry, president of the cabinet, to-day.

YELLOW FEVER IN MEXICO.

Conflicting Reports from Guaymas—Many Deaths Undoubtedly Occurring.

GUAYMAS, Sept. 18.—A copious rain fell last night, clearing the atmosphere and bringing the thermometer down to 84. People consider it as the greatest blessing that could have happened, as it will prevent a spread of the fever. Eight deaths are reported to-day. The prefect, Hernandez, has issued orders that no bodies be buried until pronounced dead by a physician. It will then be taken to the dead house three hours before interment. Quite a number of Americans and foreigners have died. At present it is impossible to learn the names. General Cobb is here devoting himself to those who apply for relief.

Hermosillo advices state that the fever is still raging badly at that point.

SAN FRANCISCO, Sept. 18.—[illegible], a Guaymas merchant just arrived here, says the disease will be dispensed with the first rains. The fever appears every summer and no one cared if the violence of the fever this year is on the increase, for want of rain. Physicians have increased the evil by denying it yellow fever. This created such a scare that people laid down and died. [illegible] but the only business done was a lively trade in coffins. Most of those who died were of the poorer classes, unable from scarcity of food to obtain proper nourishment. Many suffer from drinking cold [illegible] forming congestion of the brain and almost immediate death.

Another Guaymas merchant says the condition there is terrible and starvation [illegible] and that the emigrants from Guaymas convey but a faint idea of the horrors daily taking place.

Ten drops of Angostura Bitters impart a delicious flavor to all cold drinks and prevent all diseases. Try it and you will never be without it, but be sure to get the world renowned Angostura manufactured only by Dr. J. G. B. SIEGERT & SONS.

THE HAWAIIAN SUGAR QUESTION.

Interviews with Prominent Sugar Refiners in the East.

NEW YORK, Sept. 18.—[Special.]—The *Commercial Bulletin* publishes interviews with the sugar refiners regarding the Hawaiian report. Prominent refiners say: What we are charged for [illegible] freight for a certain number of tons Spreckels is charged only one cent. We could sell much sugar on the western coast if we could get as cheap freight rates as [illegible], and he is disposing of goods in Kansas and Nebraska. As for the assertion of the commission that they could find no evidence that goods had been brought in from China and Japan and been passed as Hawaiian, we can say that such practices are the common talk of the trade, and a very little industry would have enabled them to obtain definite information. Another dealer said: When the full Hawaiian report shall be published it will be found the late telegraphic abstract did not contain the whole truth. It was correct as far as it went, but there was much additional matter of which the telegraphic report gave no intimation. The commission consisted of General O. L. Spaulding of Michigan, A. K. Tingle of Washington and J. E. Sears, Jr., of New York. They held a meeting in New York at which the trade were invited to be present.

CONSUMERS THEMSELVES DEFRAUDED.

A number attending said there can be no doubt that the original impression of the trade was correct, that they were being defrauded by the importation of Sandwich islands sugar, but the way in which they were defrauded is not the way in which they supposed it was. Not by chicanery or trickery at the custom house, but by the language of the treaty. The treaty read that Muscovado, brown or other unrefined sugars, meaning thereby sugars commonly imported into San Francisco and Portland as Sandwich island sugars, should be admitted free. The kind of sugars to be admitted by this is such as is commonly imported into San Francisco and Portland. Everything else that is contained in the clause is surplusage, but the public and congress were deceived in a manner. They supposed that the sugar thus admitted was brown or unrefined, whereas in fact in nearly all Sandwich islands sugar No. 13 Dutch standard is universally taken as the dividing line between refined and unrefined sugars and that imported from the Hawaiian islands is all above this.

AN ANOMALOUS CONDITION OF AFFAIRS.

We present to the country the anomaly that we are taxed $4,000,000 or $5,000,000 yearly to sustain Louisiana sugar planters and keep other sugars out, while we pay Sandwich island planters $3,600,000 a year as a bonus. The assertion that this was done to benefit the American colony is not founded on facts. The Sandwich islands are in no sense an American colony. The sugar growing industry there is in the hands of Americans and Englishmen. The profits of this remission of tax inures to the Sandwich island planters and not to the refiners or dealers. The former make from $10 to $40 a ton by the remission of this duty and the United States loses the same amount by this treaty. Rice comes in free, and we lose $500,000 by that course, thus giving a bounty to Sandwich island residents of $4,000,000 yearly.

A GENTLEMAN JUST FROM HONOLULU INTERVIEWED.

CHICAGO, Sept. 18.—The *Tribune* publishes a column interview with Hon. Edward Thorne of New York, who has just returned from the Sandwich islands, where he went in the interest of certain sugar growers, to observe operations of the treaty under which unrefined Hawaiian sugars are admitted into this country and to investigate alleged abuses on the grounds of which it is argued by some people that the treaty could be abrogated. "I landed at Honolulu May 13 and sailed from there July 1[illegible], so that I remained in the island two and a half months, the whole of which time was very industriously spent in prosecuting these investigations."

On being questioned concerning the official charges, Thorne said: "As to coloring refined sugars and bringing them in as unrefined sugars I could discover no proof of it whatever. The idea that Chinese or any other sugar is brought to the islands and then shipped to America is still more preposterous."

"Then you think the treaty should stand?"

"Of course I do. Some of the eastern refiners think that it injures greatly the business of California refiners. I have satisfied myself that [illegible] the benefit goes to the planters of the island, and that if the treaty were abrogated it would be a great [illegible] every one there and ruin the island. Nothing [illegible] this country also. More [illegible] the islands [illegible] is exported from this country to the island." He further said there was no truth in the stories that slavery existed among laborers. As a matter of fact, the laborers there were treated most humanely.

WHAT BELMONT SAYS.

PROVIDENCE, Sept. 18.—Congressman Belmont of New York was asked to-day to express his views on the report of the Hawaiian sugar investigating commission. "I have not seen the official report to the treasury, but I have read what has been published in the press, but it is only proper to refrain from comment until I see the text of the report itself. I shall, however, say that [illegible] foreign affairs committee, and upon the report [illegible] I was unable to agree with the majority of the committee and submitted a minority report. I had no [illegible] that the treaty had or had not been violated [illegible] the treasury department [illegible] I believe that the investigation has been thorough and conscientious; but I must as a member of the house await the printing of the report to congress and the accompanying statement of the treasury department before expressing an opinion as to the modification or abrogation of the treaty. It is clear to me that the framers of the treaty only intended that sugar known in 1876 in the Sandwich islands and on the Pacific coast as raw sugar should be admitted free of duty, and I cannot think the treaty covers or was intended to cover sugars that are refined by any process. The commission on the contrary seem to believe the treaty covers all unrefined sugars."

THE SENATE SUB-COMMITTEE.

Testimony of Freight Commissioner Fink—He Thinks Rates are Not Too High.

NEW YORK, Sept. 18.—Continuing his testimony before the senate sub-committee yesterday, Commissioner Fink thought legislation might be employed to assist railroads in maintaining uniform rates if such an organization as he managed could be incorporated by the general government, but no direct legislation would avail. It would be best to let the railroads manage their own business until the people could understand that the interests of the public and the railroads were identical. Any legislation at the present time would be regarded with suspicion. He regarded the transportation bill as utterly impracticable. The freight rates of this country were the cheapest in the world and the tendency was still lower. The scheme that the government should purchase railroads and run them itself he pronounced the wildest folly, and one which no sane man would for a moment contemplate. The amount of the fluctuation in rates at the different seasons was never more than a few cents per hundred.

RECEIPTS AND EXPENDITURES.

The capitalized value of 1[illegible] miles of railroad in the United States was about $7,000,000,000. Last year the gross receipts of all these different lines was $700,000,000. The net receipts for the same time were $300,000,000. Out of this latter sum $100,000,000 had been paid in dividends on stocks. Of the remainder, a large proportion was expended in interest on bonds. About 50 per cent of the running expenses of all railroads went to the laborers employed as brakemen, conductors, firemen and engineers. Witness was asked if the shippers and the people were satisfied with the transportation charges fixed by railroads and replied that they never would be satisfied as long as they had to pay anything at all. The extra charge to the consumer for transportation was insignificant. The added cost of transportation to a man for the flour and meat consumed by himself and family for a year was about $1.90, or the pay of a day laborer for one day.

The system of pooling was resorted to as a means of maintaining rates, and preventing one road from cheating another and violating its agreement by cutting rates.

A STATEMENT DENIED.

The statement had been made by ex-U. S. Treasurer Windom of Minnesota to the effect that railroads had it within their power to put up rates at any time and extort money from shippers and that an increase of five cents per hundred in the transportation of grain would give a gain of $45,000,000 to the railroads. This statement was copied extensively throughout the country. This was based on a wrong estimate, as the raise of five cents referred to had only brought $2,800,000, besides there was a reduction corresponding to the increase of rates, and fluctuation in grain was between thirty-five and twenty-five cents per hundred. It never went beyond these limits and the rate was not at the lowest point. Witness did not think it was any evidence that because a road was charging too high rates that the road was paying 20 per cent dividend on its stock. The only thing to be regarded was rates.

Thomas Fortune, editor of a New York colored organ, testified that the educational facilities in the south were very poor and he advocated national appropriations for the object. He condemned the convict labor system in the south and thought investigating committees should be appointed to inquire into the matter there.

REV. HEBER NEWTON TESTIFIES.

NEW YORK, Sept. 18.—Rev. Heber Newton testified to-day before the senate committee on education and labor. The condition of the laboring classes was the subject for expert study and at the present time there was no sufficient information in regard to it upon which to base any intelligent legislation. The difficulties met with by labor reformers here are [illegible] and improper methods to which labor resorted in endeavoring to accomplish its desires.

THE PRIZE RING.

A MATCH ARRANGED.

NEW YORK, Sept. 18.—Mitchell and [illegible] [illegible] gloves October 2 next for $1000 a side.

[illegible]

HARRISBURG, Pa., Sept. 18.—Governor Pattison to-day has vetoed the concurrent resolution of the legislature instructing the appropriations committees of both houses to report an appropriation bill for the pay of senators and members up to and including September 10 and to report no other appropriation bill except for officers and employes.

Dry Goods.

NEW YORK, Sept. 18.—Autumn trade sales have begun and prices are considered fair.

FORTY YEARS' EXPERIENCE OF AN OLD NURSE.—Mrs. WINSLOW'S SOOTHING SYRUP is the prescription of one of the best female physicians and nurses in the United States and has been used for forty years with never failing success by millions of mothers for their children. It relieves the child from pain, cures dysentery and diarrhœa, griping in the bowels, and wind colic. By giving health to the child it rests the mother. Price Twenty-five cents a bottle.

PACIFIC COAST.

The Apaches Again on the Warpath in Arizona.

MR. VILLARD ATTACKED BY PNEUMONIA.

Little Chance for Justice Field to Get the Nomination—Yellow Fever at Guaymas—News from the North.

New Purchases by Villard Rumored.

SAN FRANCISCO, Sept. 18.—It is stated this evening that recent large expenditures on improvements of the North Pacific Coast railroad and construction of the new pile road two miles out into the bay have been promptly met by a corporation called the San Francisco and North Pacific Railroad Company, with Villard, president of the Northern Pacific, at its head. It is also affirmed that he has bought the North Pacific Coast railroad, running from San Francisco to Duncan's mills, with the intention to extend it to a junction with the Oregon system. It is further stated that he has bought the Santa Maria road, a short line running from Port Harford to Santa Barbara, and that he intends to build a connection to join the South Pacific Coast road. With this accomplished he would have a continuous coast line from Puget sound to within a short distance of San Diego in southern California, a distance of about fifteen hundred miles.

Governor Stoneman Denounced.

The republican state prison directors just removed from office by Governor Stoneman have addressed a four column open letter to the governor, in which they say: "We are astonished at the cowardly innuendoes and malicious falsehoods your decision contains. We use these plain but forcible expressions lest we be misunderstood." The concluding portion of the letter reads: "It is evident that the time has arrived in the history of your party for indiscriminate removal and that the party found in you a weak executive. You, sir, was elected by the votes of over 15,000 republicans who believed you possessed sufficient moral backbone to rise above the demands of [illegible] partisans."

Precautions Against Leprosy.

Consequent upon the case of Marie Nicolas, the Hawaiian leper brought here on the steamer City of New York, the board of supervisors have adopted a resolution providing that any person afflicted with leprosy shall not be permitted to land and that the failure of captains of vessels to report leprous cases to the quarantine officer shall be punishable by a fine of from $500 to $1000 and imprisonment. The leper Marie Nicolas has been sent to the pest house, where she will remain at the city's expense until she desires to leave the state.

No Show for Field.

A *Bulletin* special quoting from the New York *Times* editorial on the statement that the *Alta California* [illegible] the proposed purchase by a group of prominent democrats of this city will support Justice Field for the presidency, says: "There is not [illegible] enough on the Pacific slope to float Stephen J. Field or any other California democrat into the next national convention or the presidential candidacy. There are too many democrats on this side of the Rockies who are more powerful and have got a better start."

Yellow Fever at Guaymas.

"El Baron," a Guaymas merchant who has arrived here, speaking of the fever now raging on the Mexican coast, says that the worst is over, that the fever has exhausted itself for want of material, and that as soon as the October rains set in the seeds of the disease will be dissipated. Another merchant, however, also from Guaymas, but who [illegible] with his family [illegible], says that [illegible] only a slight idea of the terrible ravages of fever in that city.

Launch of the Monadnock.

The ironclad Monadnock was successfully launched at Mare Island navy yard this afternoon. In order to meet the requirements of congress the vessel is [illegible] the old Monadnock, but with the exception of one plank everything is new. The old ship still lies at the same spot where it was hauled when brought to the navy yard.

Shipping Intelligence.

Sudden Death on the Columbia.

[illegible] who arrived here on the Columbia to-day from Portland, dropped dead [illegible] wharf [illegible].

Death of Ex-Commissioner Evans.

[illegible]

ARIZONA.

THE APACHES AT THEIR OLD TRICKS.

TOMBSTONE, Sept. 17.—Eight Indians [illegible] Springs [illegible]. Only two men were [illegible] and Amos Wallace [illegible] killed [illegible]. There is little chance of overtaking the hostiles [illegible] a pair of them [illegible] in the mountains. They were mounted on bareback horses supposed to have been stolen from ranches below here. Several parties have left here for Sonora the past few days and grave fears are entertained for their fate. The main body of hostiles are near Casas Grandes. Their overtures of peace are now rejected by the Mexican authorities, and Col. Joaquin Terrazas was at last accounts organizing a force to attack them in the mountains. News was received to-day via courier that Terrazas while reconnoitering was captured. The report lacks confirmation.

WASHINGTON TERRITORY.

Conclusion of the Rifle Contest.

VANCOUVER, Sept. 18.—[Special.]—The rifle contest for the department of the Columbia was concluded on Tuesday, the third day. Sergeant Clark of the First cavalry won the department medal, and Sergeant Lloyd of the Second infantry the special prize given by the Second infantry. Following is the team and score of the twelve who go to the Presidio to compete for places in the division team and prizes of the war department: Clarke 263, Hinkey 25[illegible], Lloyd 256, Gruber 253, Stahl 249, Smith 249, Crampton 247, Lampson 240, Blenk 238, Reed 238, Muraschko 236, [illegible] 2[illegible]4.

News Notes from Seattle.

SEATTLE, Sept. 18.—[Special.]—Fifteen Chinamen were arrested this evening by the police for gambling.

There is yet one mile and a half of track to lay before the [illegible] is completed from Puyallup to [illegible] river bridge, ten miles from Seattle. The trestle work [illegible] will be rapidly built. The entire line will be done before the 1st of November. Track men are now waiting for rails.

The bills are now coming in for the Villard celebration. The entire cost of the jubilation is a shade above $3000.

In the past few days the weather has been a mixture of rain and sunshine.

ACCIDENTS.

A STEAMER LOST AND FOUND.

CLEVELAND, O., Sept. 18.—The steamer Saginaw, which left here Saturday night with a large number of excursionists on a round trip to Detroit and return, was due here this morning but had not arrived at midnight and no word. Friends of the passengers are greatly alarmed, fearing the steamer has been lost during the heavy storm.

CLEVELAND, Sept. 18.—Telegrams have been sent out along the lake, but nothing has been heard from the steamer Saginaw.

CLEVELAND, Sept. 18.—The steamer Saginaw proves safe and all her passengers are at Detroit. The Saginaw was laid up for the season Saturday, and her passengers transferred to the Keweenaw, which put into Pigeon Cove during the storm and lay there until this morning, when, the weather abating, she set sail for Cleveland and is shortly expected. About a dozen passengers landed at Pigeon Cove, took conveyance to the nearest railway station yesterday, and returned by rail by way of Detroit and Toledo, arriving early this morning.

PROBABLY SAVED.

CLEVELAND, Sept. 18.—Captain Stephens of the steam barge Oakland, which foundered off Conneaut yesterday in a gale, reports this morning that he has heard that the three men supposed to have been lost made their escape to shore and are saved.

CLEVELAND, Sept. 18.—Captain George Stephens, Robert Hannon, Charles Dixon and a sailor, name unknown, of the foundered steam barge Oakland, were picked up by the tug Red Cloud at 8 o'clock this morning floating on a raft made from the barge's cargo of lumber. They had been in the water twenty-four hours and were nearly dead from exhaustion. They were taken by the tug to Ashtabula. The steamer Keweenaw with the Saginaw's passengers put in at Sandusky this morning all safe.

TRAIN COLLISION.

ST. JOSEPH, Mo., Sept. 18.—A freight and a passenger train collided at Corning, Missouri, on the Kansas City, St. Joe and Council Bluffs railway, last night. Frederick Johnson, route agent, received severe injuries. Others were also injured. Two locomotives were badly wrecked.

TELEGRAPHIC SPARKS.

John Payne Collier, philologist and commentator on Shakespeare, is dead.

The treasury department of Great Britain in accordance with recent acts of parliament has canceled £15,000,000 various stocks, reducing a portion of the national debt, and has [illegible].

The [illegible] great struggle between capital and labor [illegible] the proposed reduction of wages which the [illegible] consider the present condition of trade makes necessary.

The Panic Ended.

GALVESTON, Sept. 18.—*News* Longview special: Last night was one of feverish excitement, but nothing occurred. Nearly all the whites are outspoken in the belief that there is no danger. Business was resumed and whites and blacks are again mixing without restraint. Blame for the panic is laid on a few scalawag negroes and a small number of easily frightened whites.

In East or West, or North or South,
The [illegible] to themselves an outrage do
Who cannot boast a fresh sweet mouth,
With teeth like pearls begemmed with dew.
When SOZODONT all this supplies
And works the charm before our eyes.

THE EXCURSIONISTS AT WALLA WALLA.

Mr. Villard Ill with Pneumonia—An Enthusiastic Reception to the Guests.

WALLA WALLA, Sept. 18.—[Special.]—Villard's excursion train with the English and German guests arrived here soon after midnight and were serenaded by the First Cavalry band. At 8 o'clock Mr. Villard was taken ill from pneumonia and could not appear. Sixty Umatilla Indians, under Agent Sommerville, arrived and displayed feats of horsemanship, greatly to the delight of the excursionists. The city appeared as never before, and when at 8:30 the guests were driven around many were the expressions of delight. The court house was the place of reception and was literally jammed.

Carl Schurz was introduced by Mayor Tannatt and was received with applause. He said it was like the play of "Hamlet" with Hamlet left out, in having the generous guest absent. He spoke in glowing and eulogistic terms of what they had seen from the wheat fields of Dakota to Puget sound, and spoke most enthusiastically of the magnificent scenery of the Columbia, that their grandest expectations had been surpassed, and a third surprise was to learn that here in Walla Walla there was 300,000 tons of wheat lying around awaiting shipment. [Cheers.] He referred pleasantly to the friendly relations existing between the aborigines and whites of the northwest and thought that the Indians' rights should be respected. He wanted to see all Indians settled in a peaceful manner. He believed that the Indians should be given a piece of land with fee simple titles, and the remainder of the reservation thrown open to settlement. [Cheers.] At all events the peaceful relations must be kept up.

MR. SARGENT SMITH.

Mayor Tannatt announced that, on behalf of the farmers, the assemblage would be addressed by one of the Stevens argonauts of "48," Mr. Sargent Smith, who arose amid applause. He commenced by stating that the nature of the celebration in Walla Walla to-day was to extend to Henry Villard that welcome that his genius, indomitable will and fair dealing entitled him to receive. They were also celebrating the greatest event that will ever transpire in the great northwest—the completion of the Northern Pacific. [Cheers.] Our guests had rode behind the iron horse from the Atlantic to the Pacific, and this was brought about by the indomitable will of one man—Henry Villard. We are no longer beholden to San Francisco. We can buy in the east direct and ship our wheat east and west. Shrewd men will now come here and develop our wonderful resources with their capital. San Francisco can no longer ship our wheat. We will play the second fiddle no longer. When the Cascade branch is finished we can ship direct to China via the Sound, the greatest harbor of the world, and the great resources of this country will be developed by the Northern Pacific. The road is built in the wealthiest latitude of the world. Never before had a road such a grand future. Some found fault with the rain to-day, but he considered it a good omen. It is the first we have had in 15 days and he persisted that it was a good omen. This celebration is a good omen; from this time on we shall see better times. It would take a week to explain our great resources. We have had no rain to speak of for over three months. We need no rain. There are no pests in this country. In fact, this northwest is God's own country. Where else can they show an average of from twenty-five to sixty bushels to the acre without rain? Send your ships here, we will fill them. The speaker paid a glowing tribute to that hardy old pioneer, Dr. D. S. Baker: how he worked and struggled when he built his little road, and how the country advanced from the day of its completion. [Cheers.]

OTHER SPEAKERS.

Mr. Smith was followed by Mr. Bryce Holmes, M. P., Mr. Bell and George Grass, who said he would confine his remarks to his own department and he wished to bring forward the name of General Anderson, chief engineer of the Northern Pacific, who has done most toward completing that great trunk line. [Cheers.] General Anderson was a modest man. Mr. Grass said that in one of the little towns through which they passed was suspended a motto in German, and when translated to him read: "Modesty is a great virtue but you get on better without it," and he believed it was so. The gentleman paid a glowing tribute to our country, our prosperity and our vast resources, and predicted henceforth an era of unlimited prosperity, closing by thanking the citizens of Walla Walla for their hospitality. [Loud cheers.]

After the speeches each guest was presented with a bunch of wheat as a souvenir, and being in a hurry soon started in order to cross the Snake river before dark. It was a great day for Walla Walla, and the guests considered it the best celebration they had witnessed between St. Paul and Portland.

THE HILL INVESTIGATION.

The Supervising Architect Severely Censured by the Committee.

WASHINGTON, Sept. 18.—A synopsis of the report of the committee investigating the charges against Supervising Architect Hill was sent to some of the leading papers last night. That synopsis was prepared and furnished to special correspondents by Hill in advance of the official delivery of the committee's report by them, and as regards the actual findings of the committee was imperfect. The official report says of the charge of Manly & Cooper that after advertising for proposals for making and furnishing shutters for the public building at Cincinnati the supervising architect refused to let contracts for this work to the lowest bidders.

The committee finds there is no obligation upon any officer of the government to award contracts to the lowest bidders, but they express the opinion that it would have been better and in the interest of the government if Manly & Cooper had been allowed a test for making their best shutter, the firm being responsible and in good standing and the lowest bidders by over $20,000. Every opportunity should have been accorded, that the government might profit by the large difference between its bid and that of the United States Fire-proof Shutter Company. The committee finds that such opportunity was not afforded and there was an apparent determination not to extend the time, though good and sufficient reasons were assigned for the request. The refusal to make the test, the haste with which the award was made, the refusal to make the test, and further that the successful bidders had been furnishing the government all the work in this line for several years, compel the committee to believe that the supervising architect not only did not do all he might to save this $30,000 to the government but that he did not intend that Manly & Cooper should have the contract if he could avoid it.

HILL'S ACTIONS NOT IN ACCORDANCE WITH LAW.

With respect to work on vaults, safes and locks for public buildings the committee express the opinion that for all such work proposals should have been invited by public advertisement, at least once in each year, and it says: "Giving orders continuously for a term of years to any one firm or corporation for any class of work or material, without opportunity for competition by invitation of public proposals, is not in accordance with the law, which requires that such purchases shall be after advertisement, but is in direct conflict with the letter and spirit of the law."

With regard to the purchase of elevators of one particular make exclusively and without advertisement, the committee say such purchases are unwise and are contrary to law, and that the people should be invited by public advertisement, as provided by statute, to compete, thus enabling the government to purchase on better terms than by rebate contract and obtain the benefit of all improvements, and that failing to do this the architect was derelict.

In the matter of the Chicago heating apparatus the committee says: "In the absence of skilled workmen in the supervising architect's office it was necessary to accept plans and specifications drawn by outside parties, but the price paid, which was very generous, would have been fixed by proposals from others equally competent—possibly in this case better than the [illegible] and Cincinnati buildings."

HE SERVES HIS FRIENDS TOO MUCH.

The committee also finds that the appointment of Newton to inspect material furnished was clearly not in accord with the proprieties, as the supervising architect knew he was an employe of Bartlett & Robbins and that his only duty was to inspect materials to be furnished by that firm, and in the absence of reports from Newton as to whether the work did not comply with the specifications, coupled with the knowledge that he was an employe of the contractors, the committee is not surprised that the impression should obtain and the charge be made that Newton's appointment was part of a scheme to enable the contractors to furnish material inferior in quality to that called for in the specifications.

The committee says it seems clear to it that Hill was disposed to favor Grove L. Damon and T. J. Hayward, and his action in matters with these men have the appearance of serving his friends as much as the government whose interests he is supposed to serve. It finds that during the past seven years Hayward's firm has done the lion's share of repair work on heating apparatus, secured without competition, and that the appointment is an illustration of Hill's good will toward this firm.

HILL HAS MANY FAVORITES.

It says such official favoritism is so manifest in the conduct of the supervising architect's office as to give some color of truth to the statement made by Mr. Coleman in his argument, that in every thing that goes to make up a building Hill has some one person or one firm with whom he deals to the exclusion of everybody else. The committee does not believe that this is necessarily evidence of corruption on the part of the supervising architect, but it shows that the business of his office has not been conducted with that care and economical impartiality which it should be. Your committee does not hesitate to say that the press of the country may justly criticise any office in the government conducted on such principles as have been pointed out in this case.

The report closed with a showing of the great extent of the business of the architect's office and the architect's discretionary powers, and the recommendation of the appointment of a board similar in character to the lighthouse board for the discharge of all duties relating to the selection of [illegible] the construction of public buildings. Other important points of the report are carefully covered by Mr. Hill's abstract, already published.

Skin Diseases

Fifteen years of Suffering.—Body covered with Humor.—Had Twelve Doctors.—Paid out $500.—No Cure.—No Hope.

I will now state that I made a miraculous cure of one of the worst cases of skin disease known. The patient is a man forty years old; had suffered fifteen years. His eyes, scalp and nearly his whole body presented a frightful appearance. Had had the attention of twelve different physicians, who prescribed the best remedies known to the profession, such as iodide potassium, arsenic, corrosive sublimate, sarsaparilla, etc. Had paid $500 for medical treatment, with but little relief. I prevailed upon him to use the CUTICURA RESOLVENT (blood purifier) internally, and the CUTICURA and CUTICURA SOAP externally. He did so, and was COMPLETELY CURED. The skin on his head, face and many other parts of his body, which presented a most loathsome appearance, is now as soft and smooth as an infant's, with no scar or trace of the disease left behind. He has now been cured twelve months. Reported by

F. H. BROWN, Esq., Barnwell, S. C.

Reference: Dr. H. Baer, Charleston, S. C.

Helpless for Eight Years.—Unable to Walk for One Year.—Got about on Hands and Knees.—A Wonderful Cure.

I have had a most wonderful cure of Salt Rheum. For seventeen years I suffered with Salt Rheum; I had it on my head, face, neck, arms and legs. I was not able to walk, only on my hands and knees, for one year. I have not been able to help myself for eight years. I tried hundreds of remedies; not one had the least effect. The doctors said my case was incurable, so my parents tried everything that came along. I saw your advertisement and concluded to try CUTICURA REMEDIES. The CUTICURA brought the humor to the surface of my skin. It would drop off as it came out, until now I am entirely well. All I can say is, I thank you most heartily for my cure. Any person who thinks this letter a fraud, let them write or come and see me and find out for themselves.

WILL McDONALD,
2542 Dearborn st., Chicago, Ill.

The Cuticura Treatment for the cure of Skin, Scalp and Blood Diseases consists in the internal use of CUTICURA RESOLVENT, the new Blood Purifier, and the external use of CUTICURA and CUTICURA SOAP, the Great Skin Cures. Price of CUTICURA, small boxes, 50c; large boxes, $1.00. CUTICURA RESOLVENT, $1.00 per bottle. CUTICURA SOAP, 25 cts. CUTICURA SHAVING SOAP, 15 cts. Sold by all druggists.

HOSTETTER'S CELEBRATED STOMACH BITTERS

In fever and ague districts, in tropical and other regions visited by epidemics, and indeed in all localities where the conditions are unfavorable to health, this famous vegetable invigorant and alterative, Hostetter's Stomach Bitters, has been found a potent safeguard even to feeble constitutions and fragile frames, while as a cure for indigestion, biliousness and kindred complaints it is without a rival.

For sale by all druggists and dealers generally.

OREGON

HEARD FROM.

JOHN A. CHILD, Portland, Or., writes that he has sold WISTAR'S BALSAM OF WILD CHERRY thirty-three years, and he knows it to be one of the oldest as well as one of the most reliable preparations in the market for the cure of Coughs, Colds and Throat and Lung Complaints.

J. F. VENNER, Brownsville, Or., writes that several cases recently came to his store where he had recommended WISTAR'S BALSAM for Coughs, Colds and Throat and Lung Complaints, and in every case the parties informed him that the Balsam had helped them. One old gentleman told him that the Balsam had saved his life thirty years before.

R. F. BELT, Salem, Or., writes: "WISTAR'S BALSAM has always given entire satisfaction, and those that have used it stick to it."

[illegible]

With this remedy persons can cure themselves without the least exposure, change of diet, or change in application to business. The medicine contains nothing that is of the least injury to the constitution. Ask your Druggist for it. Price, $1 a bottle.

WEDNESDAY MORNING, SEPT. 19, 1883.

TIDES OF IMMIGRATION

...mparison of the immigration tables of the ...ent year with those of the past three years, ...w a very considerable falling off, but the ... into the country is so great that a differ... of a few thousand makes very little im...ession in the rate of increase of the popula...n. For the past four years, however there ...been much more than a few thousands of ...crease—so much that the rate must be revised ...get anything like an accurate computation ...the number of people in the United States ...between 1870 and 1880 the growth of the pop...ation was 30 per cent or 3 per cent. a year ...f this 30 per cent 22½ was due to the natural ...rowth, and the remaining 7½ to immigration ...has gave three quarters per cent per year as ...e rate of increase due solely to immigra...on. On that basis, the present population of ...he country would be about 54 500 000. During ...he last four years, however, 2 514,794 foreign...rs have landed on our shores, as against ...,354 934 for the nine years preceding that. This increase has raised the rate to about 3 8 ...er cent, and on that basis the total population ...s not far from 56,000 000.

There has been three well marked flood tides ...f immigration in this country, aggregating about twenty years, during which there have come two-thirds of the entire number of foreign...ers landed on our shores. There are causes on both sides of the water which increase and retard the flow. For instance the nine years referred to above comprehended a period of financial depressions here which greatly hindered immigration. Since then our increasing prosperity has had its effect in producing the unprecedented flow of the past four years. On the other side periods of famine and disaster naturally lead many to turn their eyes to America and the presence of military conscription, although continuous has an increased effect at certain times. One of the great waves of immigration was due largely to the famine of 1847 in Ireland and to the political disturbances throughout all Europe of the year that followed. Just now there is nothing besides our general state of prosperity, the burden of standing armies in Europe and the chronically unhappy condition of Ireland to cause any large influx to this country. The rate for the next year seems likely to be a little smaller than for the past four, but still larger than that immediately preceding them. The population in July, 1884, will be nearly 58,000,000. A very considerable part of the great immigrations is of an undesirable class—adventurers who exhaust their resources in the passage across the ocean and arrive on this side without means. The three thousand miles between the Atlantic and Pacific will protect Oregon from this indigent class. Only the best class of newcomers—those with intelligence and some little capital—will push across to the Pacific northwest.

THE TRADE OF COREA

Investigation of the resources of Corea has resulted in the discovery that a considerable trade could be established between the United States and that country by a little enterprise. Corea produces some rice, cotton, timber and silk. Little or no manufacturing is carried on by the natives, while the demand for cotton goods, which constitute almost the sole wearing apparel of the inhabitants, together with many minor articles of use and ornament is very large. Rice is the staple article produced, and is said to be of a superior quality. Cotton is raised to a less extent, and silk in about the same quantity. The cultivation of the latter product has been heretofore discouraged by China under whose suzerainty Corea has until recently been held, as it interfered with the former country's monopoly of that valuable industry. By the late treaty with this country and the still more recent visit of the Corean embassy, an opportunity has been afforded for opening commercial relations between the two countries which should result in much good to both. We need rice, silk and cotton and Corea needs our manufactured goods. Our cotton is especially valued by the natives of that country, owing to its better texture and solid weight. Their manner of washing clothes, consisting of alternate rinsing in water and pounding upon stones, calls for goods of great strength and stiff material to work upon. This they find in American products. The demand for that class of goods known as "Yankee notions" is also a growing one, and the simpler kind of household utensils are among the many articles rapidly coming into common use. The Pacific coast is particularly interested in the development of commercial relations with all countries bordering on the great ocean west of us, and it may be well for our merchants to give this young kingdom's wants an investigation. Portland is large enough to plume her commercial wings and reach out for a little of the trade that is falling into the hands of others. With our manufacturing facilities and other natural advantages competition with the eastern side of the continent will be easy, and the rich fields of the Orient should not be allowed to yield their harvests to foreign hands.

THE ENGLISH POSTAL SERVICE

The postmaster general of Great Britain, Mr Henry Fawcett, in his last annual report, just received, gives some interesting information respecting English postal affairs. The number of post offices in the United Kingdom is 15,400, and the total number of persons in the department holding permanent situations is about 44,600. The list of retired officers in receipt of pensions shows a total of 3385, whose pensions amount to £176,826 a year. In addition to these, about 41,000 persons are employed by local postmasters, most of whom have other employment, and are engaged on postal duties during only a portion of the day. The operations of the telegraph department are summarized as follows: Number of messages transmitted, 32,092,026, an increase of 746,165 over the previous year. One hundred and forty seven post offices and railway station offices were opened for telegraph work during the year making the total number of telegraph offices 5742. The gross revenue from the telegraph service was £1 740,608, against £1,630,443 for the previous year but owing to a considerable increase in the working expenses of this branch of the service, the net revenue for last year was but £235,570 against £264,810 in 1881 82. A reduction in the minimum charge for inland telegrams from 1s to 6d is contemplated and will be made as soon as the necessary increase of plant can be effected. The business of the postal savings bank shows satisfactory progress, and is summarized as follows. The deposits at the close of the year amounted to more than £40,000,000, an increase of nearly £3,000,000 during the year. This is the largest annual increase since the establishment of the bank in 1861. There were 788,358 accounts closed, and the number of individual accounts closed during the year, and 537 ... remaining open at the close of the year was 2 858 961, an increase of 251 364 over the preceding year. The savings bank business in Ireland Mr Fawcett says again shows a large annual increase, the deposits amounting to £152 673, or nearly £100,000 more than the previous year.

From our dispatches this morning it will be seen that affairs in Canton are growing serious. The rabble of that city is giving active indications of its discontent and it is stated that the Chinese gunboats before the city will assist their countrymen in an outbreak. British troops have been ordered to hold themselves in readiness at Hongkong to proceed to Canton upon the first news of another uprising. The foreign residents of Canton, Foochow and other Chinese treaty ports are becoming alarmed at these premonitory signals of disaffection, and measures for their protection, in case of a general outbreak, are in active preparation.

THE TARIFF AS AN ISSUE

While the republican statesmen are generally counting upon the tariff as an issue that can be made very effective in the coming campaign, there are many evidences of a growing conviction among some of the manufacturers in New England that there is a point at which the continuance of heavy customs duties becomes a positive injury, that they lead to over-production and a consequent reduction in prices which necessitates lower wages for the workmen or a suspension of work, which amounts to the same thing. Several of the largest mills on the Merrimack are now idle, because they cannot be profitably operated. Capital thus loses its reward, the operatives their wages, while the general trade of the country suffers by a diminution in the number of customers. The misfortune arises from the fact that almost the only market open to our manufacturers is the home market and when that is glutted there is no other outlet except an extremely limited one through which they can dispose of their goods. With a moderate tariff giving incidental protection to our manufactures because a large revenue is required to meet the annual expenses of our government, with the skill and intelligence of our people aided by the genius of our inventors in producing machinery that economize the use of manual labor and with all raw material, except such as can be had at home, put upon the free list we should be able to enter the markets of the world upon as favorable a footing as the manufacturing states of Europe. It is one of the most noteworthy incidents reflecting this at least partial change of feeling that a New England manufacturer when before the tariff commission, should have declared himself in favor, not of a modified tariff merely, but of free trade, while a year later another New England manufacturer who had been an avowed protectionist, should over his own signature express the conclusion that the best interests of the country required a gradual adoption of the principles of free trade.

A gentleman who accompanied the Villard party writes that the remarks in THE SUNDAY OREGONIAN about the earl and countess of Onslow were incorrect and very unjust. Those persons did not appropriate a car all to themselves and they left the party at "last spike" because their programme did not include the Pacific coast. Nor did they take an entire baggage car for storage of their baggage but used the same car that all the other guests used for that purpose. In explanation of our publication of the statement referred to it is proper to say that it was taken from newspapers of the east—the Chicago Herald among them—which recorded the progress of the party. They added however, as a compliment to the earl, that he was of very ancient and noble lineage. His grandfather was Robin Hodge, a veterinary surgeon in the reign of George III. "He was created an earl for having personally relieved the king's favorite stallion of a severe case of the botts, and was granted an estate in Cornwall, where for many years he grew the finest potatoes in the kingdom.

A hopeful tendency among the farmers of the eastern states, was noticed by Gov Pattison of Pennsylvania in a recent address. Since 1850 the amount of land under tillage in the state has increased 30 per cent, while the number of farms has increased 70 per cent. This, he said gives proof of a tendency to put farming in the hands of a middle class rather than in the hands of a great land monopoly." In the south the same tendency is noted in the growth of truck farming in place of the old plantation system. In Georgia especially, there has been a decided subdivision of large estates, and the state largely owes to that fact the thrift and prosperity which has made it the most progressive state of the south. Great farms render society almost impossible at least the institutions of society such as the common school and the church cannot exist in their best state where population is sparse and unsettled, as it is where land is cultivated in large tracts by a single landlord or corporation.

We have a learned disquisition on an error of typography in Mr Evarts' quotation or paraphrase, from Virgil, in his speech here. A letter was dropped from "armis" making it "amis" which was nonsense. The writer suggests that Mr Evarts intended "amnibus" instead of "armis"—that is to say a country mighty in rivers and lands and fertility of soil. But we don't think he used that word. The phonographer's notes which read "armis," could not possibly have contained that word had "amnibus" been intended. It is proper to say that Mr Evarts' quotation from Virgil was not an exact one, presumably because he did not intend it to be so.

The widow of Rev Elkanah Walker is probably the sole survivor of the women who rode across the plains to Oregon, on horseback in the early days. She resides at Forest Grove, Washington county and is still in good health. The saddle on which she rode across the plains forty five years ago is still in her possession. Her son C H Walker the oldest white person born in Oregon, was with her in Portland on the day of the railroad parade. He resides in Wasco county.

The telegraph continues to tell about Sharon and Miss Hill. The quarrel is a private one and of no great interest to the public, which has heard enough already to show that Sharon is a scrub and a scoundrel and that Miss Hill is a fool or a strumpet.

BEECHER AND THE CHINESE.

Comments of the Press Upon His San Francisco Lecture

NEW YORK, Sept 18—Special.—The Star editorially on Beecher's San Francisco lecture says: It is very easy for a well fed preacher like Beecher to indulge in abstract formulas and canting generalities but if Chinese competition affected the pulpit as it has affected various industries on the Pacific coast Beecher's economic platitudes would speedily give way before the stern logic of facts. The bread and water science of living makes a clever rhetorical phase but Beecher himself would not willingly descend to the dollar a-day level, and the average American workman is not to be blamed for ... distinction of the same sort. Beecher is a man ... extensive learning and experience and perhaps he ... consent to elucidate what the intelligence and ... of nothing Caucasian has yet discovered ... namely that magical science of living by which a white American can raise a family on lower wages than a Chinaman can subsist upon. Let Beecher do this and a lecture upon the subject will be a phenomenal success.

NEW YORK, Sept. 17.—Special.—Speaking of Beecher's remarks on the Chinese question, the Graphic says: There are 400 000 000 Chinamen against our 50 000 000. Turn the former loose upon us and what becomes of American labor? It would be a princely thing for the capitalist but it would be death to the workingman and the system which contemplates his elevation as the means of ... salvation. Our workingmen do not have too good food or too much of it now and the problem of ... to live cheaply is not the sole purpose of life. Beecher is merciful to the future at the expense of ... of the present. He has lofty ideas as to the ... mingling of people in some day that can never come, but he is cold blooded as a fish with respect to the workingman and the republic of his own ... [illegible]

REMARKABLE ESCAPE.

John Kuhn, of Lafayette, Ind., had a narrow escape from death. This is his own story: "One year ago I was in the last stage of consumption ... [illegible] ... I finally got so low that our doctor said I could not live twenty four hours. My friends then purchased a bottle of DR. WM. HALL'S BALSAM FOR THE LUNGS, which benefited me. I continued until I took nine bottles. I am now in perfect health, having used no other medicine."

The hair is the least destructible part of our bodies. In Egypt it has been known to survive 2000 years and bids fair to outlive the pyramids. There are but three coloring pigments in ... yellow, red and black, and the mixture of these produces all the known shades.

What is bred in the bone will never out of the flesh. But rheumatism, ... constipation and all other complaints ... derangements of the ... of the liver, kidneys and bowels will ... of the flesh without fail after the ... use of Kidney Wort. THE cure for all such diseases.

They thought they heard burglars in the house last week, and in going down stairs to investigate, Bibbs said to his wife: "You go first, it's a mean man who would shoot a woman.

RICHMOND, O.—Dr. A. Page says: "I have prescribed Brown's Iron Bitters in several instances, and in each case obtained good results."

"Pap, what was that the governor of North Carolina said to the governor of South Carolina?" "You are too young, son, to ask such a question.

Leading Physicians, Eminent Divines—every one who tries it indorses Samaritan Nervine.

"Don't Die in the House." "Rough on Rats." clears out rats, mice, flies, roaches, bedbugs. 15c.

THE NAUGHTY RITUALISTS AND THEIR WAYS

To the Editor of The Oregonian:

The world moves, and we move with it, and this is as true in matters religious as in matters secular. A friend in Ohio has kindly sent me the September number of The Southern Ohio Church Chronicle, the diocesan paper of that low church diocese. From it (mirabile dictu) I have clipped the following, and ask to spread it before your readers, because I am of the opinion that it contains meaty matter which should be read, marked, learned and inwardly digested in dioceses other than southern Ohio. The writer, an Ohio clergyman, had attended service at the church of the Advent (the high ritualistic church of Boston—and speaking of it he says:

"Another noticeable feature at the Advent is that here literally the rich and the poor meet together. Upon the seat in front of me sat two elegantly dressed ladies; on their right a man poorly dressed, and on their left a poor colored girl. Indeed the sprinkling of colored people in the congregation was quite noticeable. If this one be the fruits of ritualism there is certainly room for it in the church and until we conservative churchmen can point to a like fulfillment of the Master's spirit in our churches it becomes us, as a matter of taste, to refrain from abuse, and let them alone, rather than to ... against them. If the ritualists can express something of the spirit of Christ in democratic union, the rest of us had better ... [illegible] ... our churches. I for one can say, Thank God for ritualism."

How oddly that must sound to many churches in cities other than Boston. Of how many churches can it be said in Portland that "here literally the rich and the poor meet together? Who have ever saw the strange sight of two elegantly dressed ladies on their right a man poorly dressed and on their left a poor colored girl, and all sitting in the same pew, and that pew not owned by living mortal? Those poor deluded ritualists of Boston seem to have been possessed of the idea that the church is a place where all human distinctions of wealth and poverty, of social standing and race should be forbidden, unheard of and unknown—and that meeting upon a common level of a common sinfulness and unworthiness all should kneel in unowned pews to the common father of mercies. We have drifted so far away from the reality, any such picture as this that the sensible masses around us have concluded to let the churches severely alone. And pray who has a right to blame them? When the right to a seat in the father's house will be knocked off at auction to the highest bidder, has not the spirit of the world banished the spirit of Christ from his own body, the church?

In every ritualistic church in the land such an abomination as an owned pew is utterly unknown. All pews are free in very deed as well as in name to all children of the common father. Wealth cannot purchase the best pew nor poverty denied the place of honor. And this is as it should be. If the ritualists shall succeed in putting an end to the pernicious practice of selling pews they will not have lived in vain. But they have a higher and holier work before them—even the return of the church to its primitive faith and practice—and the signs are now wondrously hopeful that that strong hold of low churchism, southern Ohio will not long withstand their assault. They are emphatically the works of the church and will accept no result as final but assured victory.

A CATHOLIC LAYMAN

Governors of states, mayors of cities, prelates of the church endorse and recommend St Jacobs Oil, the great pain reliever.

DIED.

GRATEFUL—COMFORTING

EPPS'S COCOA.

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.

Made simply with boiling water or milk. Sold in tins only (½ lb. and lb.) labelled thus: JAMES EPPS & CO., Homœopathic Chemists, London, England.

CITY.

[illegible]—Rev W R Elshop received a dispatch yesterday from Lebanon informing him of the death of [illegible] Ballard Dr Ballard died yesterday at his residence in Lebanon after a protracted [illegible]. Deceased was one of the old pioneers having settled in Linn county over a quarter of a century ago In 1866 he was appointed governor of Idaho territory, and filled the position with satisfaction to all and credit to himself, with the exception of the four years he [illegible] the state Dr Ballard has followed [illegible] for many years a large and [illegible]. He was a skillful physician and [illegible] confidence and esteem of a very large [illegible] and acquaintances. His death is [illegible]. Dr Ballard leaves a wife and five children, [illegible] daughters and one son—all of whom [illegible] estate of womanhood and manhood. [illegible] Bishop acted as private secretary to [illegible] during the greater portion of his [illegible], and, on learning the sad news, left on [illegible] train to attend the funeral

[illegible]—John Sieburight who was arrested several days ago on a dispatch [illegible] was brought down by Sheriff Sears [illegible]. The prisoner is charged with having [illegible] from Portland some months ago with [illegible] the property of his wife whom he had [illegible] to his flight Mrs Sie[illegible] than her husband and [illegible] as attractive to him as did a married [illegible] whom he went to Victoria at the time [illegible]. The daughter was taken sick on [illegible] and returned to this city in about two [illegible] was arraigned in Bushwiller's court [illegible] through his counsel waived examination and [illegible] held to answer before the grand jury [illegible] $500 bail Yesterday afternoon his [illegible] District Attorney Caples to [illegible] dismissed, but all the costs in the case [illegible] before this can be done The parties [illegible] from Independence Oregon The [illegible] committed to the county jail in de[illegible].

[illegible]—Wm Patterson who by [illegible] the individual who was "struck [illegible], recently arrived in this city from [illegible] country which he reports to be a very [illegible]. Most of the mines are located [illegible] and the quartz found [illegible] which goes in some in[illegible] $300 to the ton. Mr Patterson [illegible] John Pointon an Irishman, 50 years [illegible] in his employ as a miner was [illegible] several weeks ago and re[illegible] from the effects of which he has [illegible]. The deceased left a wife and four chil[illegible] brother living somewhere in Cali[illegible] the point of debarkation for the Okanagan [illegible] W T thence the prospector [illegible] to the mouth of the grand [illegible] to the Columbia river from whence he pro[illegible] mineral belt. A number of gentlemen [illegible] the Sound are interested in the [illegible] development of these mines

[illegible]—The case of Robert Dor[illegible] and Charles Rose, arrested for [illegible] a Second street saloon keeper of [illegible] and three silver watches was [illegible] in the police court yesterday [illegible] was the first witness examined [illegible] that the Dorsey brothers purchased [illegible] for the amount above mentioned and paid [illegible], which was placed in another room [illegible], and from which place it was subse[illegible]. Perry's testimony was corroborated [illegible] by several other witnesses [illegible] no evidence which tended to show that [illegible] had anything to do with the theft [illegible] accordingly discharged Judge More [illegible] his decision as to the other two men [illegible] Charley Rose, or as he calls himself [illegible] is an ex-convict, having been in the [illegible] three times for various crimes It is [illegible] know more about the robbery than he [illegible] divulge.

[illegible] CIRCUMSTANCES —William S Pound [illegible] states that he was severely injured [illegible] one of the crew of the life-boat [illegible] to the assistance of the Queen of the [illegible] was crushed down in the boat by several [illegible] passengers falling upon him and his [illegible] injured that he has been confined [illegible] ever since. His means are almost ex[illegible] his two little children to provide for [illegible] and it is uncertain when he will [illegible] anything for himself This is a sad [illegible]. That a man who risked his life and [illegible] injuries in trying to rescue people [illegible] be in such distressful circumstances [illegible]. Will some of the philanthropic citi[illegible] investigate the matter and if assist[illegible], try and start a subscription for his [illegible] no doubt some charitable Portland [illegible] readily contribute

[illegible]—The Cheney Sentinel of a recent [illegible] the following fatal accident About 8 [illegible] on Monday a man by the name of Fox [illegible] from the east while out looking for a farm [illegible] thirty-five miles from Spokane Falls met [illegible] accident which resulted in his death [illegible] Mr Fox had alighted from his wagon [illegible] the act of drawing a loaded shotgun from [illegible] in some manner the hammer caught [illegible] the contents of the gun into his right [illegible] the shoulder Fortunately there was a [illegible] who administered opiates until they [illegible] Spokane Falls at 5 o'clock in the evening [illegible] at once amputated the limb but he sur[illegible] a few hours Mr Fox leaves a wife and [illegible] Vancouver W T in straightened circum[illegible]

[illegible] OF LITERATURE —John Hall, an in[illegible]-looking and respectably dressed man was [illegible] by Officer Higgins yesterday morning for [illegible]. The defendant entered the estab[illegible] of J K Gill & Co the well known book [illegible] picked up a book valued at $2 which he [illegible] concealed on his person The theft was [illegible] by an employe of the firm who summoned [illegible]. When asked if he had anything to say [illegible] court yesterday afternoon he simply [illegible] "guilty." Mr Mulkey informed him that [illegible] charged with a felony and asked him whether [illegible] waive examination or not The prisoner [illegible] undetermined on this point and the case was [illegible] until to-day to give him an opportunity to [illegible] his mind.

[illegible] TRANSPLANTED — Among the freight [illegible] overboard from the Queen while she was [illegible] Clatsop, was a number of cases of trans[illegible] eastern oysters belonging to C A Malarkey [illegible] were broken open by the waves the oys[illegible] probably travel around till they find a fa[illegible] spot to settle on and some time in the future [illegible] expect to hear of a bed of genuine eastern [illegible] being found somewhere along our coast If [illegible] remain unbroken the oysters therein wi[illegible] themselves after a few years It would be a [illegible] thing to this section if "saddle-rocks [illegible] take the place of the tiny bivalves of Shoal[illegible] and Olympia

[illegible] AFFAIR —The fragments of a young [illegible] photograph, a letter written in a lady's hand [illegible] empty pistol cartridges were found on [illegible] by A. Ferrera while taking a pleasure trip [illegible] a week north of this city The natural [illegible] was that some discarded lover had de[illegible] the image of his false love and her note dis[illegible] him and then killed himself A careful [illegible] revealed no traces of blood, brawn or brains [illegible] has taken himself off he has effect[illegible] concealed his identity An effort was made to [illegible] the fragments of the letter together so as to [illegible] readable, but without success

[illegible] COLLISION —About 7 o'clock Monday [illegible] collision occurred on the O R & N comp[illegible] on this side of Clarnie between a freight [illegible] construction train the latter being ditched [illegible] locomotive of the freight train getting badly [illegible]. The accident was caused by a misplaced [illegible]. A number of Chinamen were on the con[illegible] train, four of whom were seriously injured [illegible] the train employes were hurt The wounded [illegible] removed to the hospital where their [illegible] were attended to An investigation will be [illegible] discover who is answerable for the accident

[illegible] TERMS FOR YOUNG MEN —The Young [illegible] Christian Association are inaugurating a [illegible] of entertainments or socials for the benefit of [illegible] men of our city the first of which will be [illegible] Friday evening next in the parlors of the [illegible] and will consist of vocal and instru[illegible] music, songs recitations etc and an ad[illegible] by the well known orator Major H C Dane [illegible] kindly consented to favor the association [illegible] occasion Admission will be by card which [illegible] obtained at the rooms and will be free to all [illegible]

[illegible] OFFICE REMOVAL.—Emigrant tickets to [illegible] west put on sale at the ticket office of the [illegible] yesterday and about fifty were purchased. [illegible] first-class tickets for St. Paul and other [illegible] were sold yesterday The ticket office [illegible] removed to the new building on Ash street [illegible] and then Maxwell will be in his [illegible] prepared to sell tickets by ocean, river [illegible] telegraph to all points attainable by [illegible] travel Some of his tickets are a rod [illegible] more compass than a city of Portland

[illegible] JOURNALISTS RETURN —The visiting journal[illegible] who accompanied Mr Villard to this city and [illegible] proceeded to the Sound and Victoria returned [illegible] yesterday arriving at the Ash street [illegible] o'clock P M They will leave Thurs[illegible] for the east and as many of them de[illegible] a further look at the majestic scenery of [illegible] river, they will leave here on the [illegible] and then catch an east bound train for [illegible]

[illegible] —North Front street in the vi[illegible] of the west side depot and Ainsworth dock [illegible] with vehicles of all descriptions from [illegible] night, and especially is it crowded at the [illegible] arrival and departure of trains and [illegible] about time that the piles of lumber and [illegible] occupy about half of that thoroughfare [illegible] and the street improved to its full [illegible]

[illegible]—I Roberts whose arm was so [illegible] shattered by the accidental discharge of a [illegible] at Freeport W T last Sunday was com[illegible] to submit to an operation for the removal of [illegible] arm. The amputation was performed by [illegible] yesterday at the Good Samaritan Hos[illegible]. The patient was resting easily last night

[illegible] LEVY.—The county court yesterday fixed the [illegible] levy on property at 15½ mills, which are apportioned [illegible] as follows County tax .007 school .004 and state [illegible]. There is an increase of one mill upon the [illegible] tax, which was fixed by the last session of the [illegible]

[illegible] R. G. Smith, temporarily over Labbe Bros. Sec[illegible] Washington until new office is ready

THE PRESS EXCURSION.

A Delightful Voyage on Puget Sound, through the San Juan Archipelago, and a Visit to Victoria

The journalists and artists who left Portland Friday morning in charge of Mr E V Smalley returned yesterday from a very delightful excursion on the Columbia river and Puget sound The movements of the party up to the time of leaving Seattle late Saturday night have already been noted After the banquet at Seattle the party went on board the steamer North Pacific and retired for the night. The next morning they woke up at Port Townsend where Mr [illegible] an intelligent and gentlemanly inspector of customs was taken on board and with General Hazard Stevens who accompanied the party from Seattle gave the guests much interesting information about the Sound Leaving Port Townsend the steamer passed up the Sound by Anacortes to Whatcom at the head of Bellingham bay and returned through Rosario and [illegible] passes to Victoria the capital of British Columbia The health officer of the city coming on board was at once assured of the health of the excursionists and soon they were wending their way through the streets of the city which with the exception of those occupied by Chinese were very quiet Some to the churches and others to the China [illegible] At the Presbyterian church an excellent sermon was preached by Professor James D Butler of Madison Wis Monday morning the party drove to Esquimalt harbor where three British war ships were anchored and returning visited the government office and the residence of the lieutenant-governor Before leaving Victoria Mr Smalley invited to lunch with his party on the boat Hon W [illegible] Smithe premier of the provincial government Hon John Robson minister of finance Hon Allen Francis U S consul Mr O E Redfern mayor of the city Mr D W Higgins editor of the *Colonist* and Mr George Wise editor of the *Evening Post* Mr Smalley proposed as toasts her majesty the queen the province of British Columbia the city of Victoria the United States the press and the press of the province Responses were made by Premier Smithe the Minister of Finance Consul Francis Mayor Redfern Mr Noah Brooks of New York and Mr Higgins of Victoria Mr Francis was appointed to his office by President Lincoln He was much affected by the visit of the journalists whose presence aroused tender memories of his own land that he could scarcely speak Mr Smithe the premier of the province made the only particularly striking speech of the occasion and his remark was striking only because of the lack of tact it displayed or perhaps it would be more correct to say the lack of knowledge for it would not be just to assume that he would have purposely said what he did about the tendency of our southern states to produce one inferior order of people and the prospects of the disruption of our government if he had known any better The banquet was with this exception a pleasant occasion Mr Smalley and Mr Brooks both gave evidence of the power of speech as well as the power of the press represented in the party

After the banquet and the farewells the steamer left directly for Port Townsend Monday morning the party had an early breakfast on the boat and then took the regular train for Kalama and there went on board the Wide West and made a quick passage to Portland The excursion was one of the pleasantest that any individual in the party ever enjoyed The voyage through the archipelago with Mount Baker and the Olympian mountains in the distant view and a constantly shifting panorama of islands and straits in the foreground filled the day with pictures of remarkable variety and beauty and if some of the party had glimpses of the light which never was on sea or land they all had some degree of elevation of feeling which comes from association with high objects and enduring things It certainly required no great stretch of fancy to suppose at times during the day that they were voyaging among those fabled far off islands where winter is not, and the breezes blow soft from the ocean The voyage was pronounced by all as one that offers for the artist and the tourist whether in search of pleasure or health unparalleled attractions

Before leaving the boat a resolution was unanimously adopted thanking Captain Wilson, the steward and the men on the North Pacific for the polite attentions they paid their guests and for the excellence of the table and its service At Victoria there was a slight earthquake at 4 o'clock Sunday morning It woke up the people in the city but the steamer was not disturbed by it The journalists will remain in this city to-day and this evening be entertained at a banquet given by THE OREGONIAN at Esmond's and to-morrow leave for the east

A PLEASANT START MADE.

The trip of the English and German portion of Mr Villard's guests to The Dalles on Monday the beginning of their journey east proved to them one of the most agreeable incidents of their trip to the northwest They left here on the Wide West Capt Babbidge, and greatly enjoyed the magnificent scenery between here and the lower Cascades as well as a splendid lunch which was provided for them They crossed the old portage on a train prepared for them by the company's agent there which consisted of two coaches with six flat cars finely decorated and comfortably seated between them By the care and forethought of Frank T Dodge superintendent of the Sound and River division who had charge of the party the brush along the river bank had been removed thus affording the party a splendid view of the cascades nearly their entire length Near the Upper Cascades was a party of white men and Indians engaged in fishing for salmon and a number of seals engaged in the same pastime One of the English guests inquired what the seals were doing there and upon being told by Mr Dodge that they were catching salmon jumped to the conclusion that they were in the service of the fishermen on the bank and inquired how long it took to tame the seals so that their services were available At the upper cascades the party took passage on the Harvest Queen which as is always the case with any boat commanded by Captain McNulty was the perfection of neatness and was very handsomely decorated On board this boat another lunch was spread and to do justice to this and the beautiful scenery of the upper Columbia the time passed pleasantly till the arrival at The Dalles The guests were delighted beyond measure with the trip and expressed great admiration of the scenery of the river Among the Englishmen were a number of members of the Alpine club—regular globe trotters—who stated that never before had they viewed such a panorama of scenery The guests at parting were profuse in their expressions of thanks to Mr Dodge by whose attentions and care their various journeys by river during their stay here had been made so pleasant

BRIEF MENTION

The petit jury in the state circuit court has been excused until Tuesday the 25th inst

There arrived by the Northern Pacific yesterday twenty two through passengers from St Paul

A fine English mastiff belonging to Pat Smith was run over and killed yesterday by one of Weinhard's trucks

James Turk for an alleged assault and battery upon John Scribner will stand his trial in the police court on Thursday

Billy Morgan will supply the thirsty Portlanders with Gambrinus beer at the state fair grounds at Salem during the week

The Y M C A received yesterday a generous donation in the shape of a check for $100 from the firm of Balfour Guthrie & Co

The stone cutters in the employ of the Northern Pacific Terminal Company struck yesterday for a uniform compensation of $4 per day

John Helliff arrested for selling liquor was discharged yesterday in the police court it having transpired that he was innocent of the charge

Lizzie Armstrong was arraigned in the police court yesterday on a charge of stealing $15 in coin from Wm Ward On motion of the district attorney the case was continued until to-day

The steamer Isabel is running to landings below Salem, but has not quite water enough to make the freighting profitable between here and the capital The [illegible] McCully which has been laid up across the river for several months has been brought across to Hatch's dock and is being fitted up for the fall trade

The locomotive that was placed in Henrichsen & Greenberg's window made of immortelles over a light wire frame was presented by these gentlemen to Mr Villard but he was unable to take it with him so that it remains in the residence of Mr Schulze where Mr Villard stayed during his sojourn in Portland

Dr William Pfunder the well known chemist and compounder of patent medicines got in his work on the last spike celebration by inventing a new handkerchief perfume neatly put up in a four-ounce vial with a label of neat and appropriate design It is a very fragrant perfume and compounded according to the Pfunder mental rules of pharmacy

The *Annual Statistic* for 1883 is on our table the compilation of L P McCarty who has published it for nearly fifteen years The agent W B Berran will visit all the principal towns in our state and every man who wants a complete library should have a copy There are some few trifling inaccuracies as to the performance of notable horses but the book is mainly correct in everything which it states

PERSONAL.

R O Dunbar of Goldendale is in the city

Bishop Paddock of Washington territory has gone east to visit his family at Brooklyn N Y

H B Standerwick of the San Francisco *Examiner* is a passenger on the incoming steamer

Misses Annie Henderson and Annie Coffin of The Dalles passed through the city yesterday on their way to the state university at Eugene

THE SELLWOOD ROBBERY —A lad named Smallden who is a son of the notorious Shamrock Mary was arrested last night on suspicion of being one of the boys who robbed several Chinamen of $[illegible] and a pistol at Sellwood about two weeks ago One of the young miscreants was caught and while being brought to this city in a wagon by [illegible] T D Sprague he jumped from the vehicle and escaped Smallden says that the boy who got away is [illegible] Oliver and that he is now at Kalama Detective Simmons will go down after Oliver to-day

STREET RAILWAYS —The extension of the Third street line to South Portland and beyond the Cricket grounds is looked forward to with anxiety by residents of the south end Already this line carries [illegible] per cent of the travel heretofore carried by the Holladay line Quick trips at schedule time is necessary to make any line popular and profitable

The dependence of man upon wheat bread for his best nourishment makes it imperative that the bread be light palatable easy of digestion Dr Price's Cream Baking Powder is the best means we have for securing those ends A nation of housekeepers have been using it for years and found it always the same pure and healthful

STATE FAIR RESTAURANT Mr L Stone proprietor of the Home Restaurant having leased the restaurant on the fair grounds has fitted it up and is prepared to seat two hundred persons A first class table will be set and visitors will find it the best place to secure meals

DANCING SCHOOL.

J W Varney will give instruction to a limited number of gentlemen in dancing at Turn Halle commencing Sept 24 Tuition $5 for eight lessons Class and afternoon classes that have not secured their evenings and afternoons better apply soon.

DRESSMAKERS WANTED

Ten first-class dressmakers and five apprentices wanted immediately Apply at Mrs Fliger's 1?? First street

Delicious Ice Cold Cream Soda from the beautiful Fountain Agnus at Postoffice Candy Store

THE STATE FAIR.

Second Day—The Display of Agricultural Products Very Fine.

ATTENDANCE LARGE AND INCREASING

Full Particulars of Yesterday's Races—To Day's Programme

[FROM THE OREGONIAN'S LOCAL CORRESPONDENT]

STATE FAIR GROUND Sept 18

All the exhibitors are busily engaged in preparing for their displays A large number of exhibitors have come in since yesterday and additions are constantly being made The weather was cool and delightful the heavy shower of Monday night having settled the dust cleared away the smoke and rendered the air pure and sweet There is a very noticeable increase in the attendance over yesterday

The agricultural exhibit is taking a new departure in that the counties are exhibiting their products separately which will ultimately lead to a good deal of needed competition and will be a good thing for the fair Clackamas Marion and Linn counties have excellent separate exhibits There is also a general state exhibit of grains and grasses gathered by D D Prettyman which contains about 100 specimens The exhibit from Clackamas is very creditable Judge N W Randall collected displayed and has in charge the specimens of that county They are neatly arranged in the first stand on the right as you enter the main door of the pavilion There are twenty five varieties of apples of which some are excellent They were raised on the Green Point farm of Mrs Dement near Oregon City Hartford grapes and genuine blue damson plums and very fine Miller peaches comprise the fruit exhibit There are two varieties of potatoes three of corn of which the Early [illegible] sweet corn has a very large ear for a small stalk There are six varieties of oats raised by J W Thompson Samuel Walstow J T Apperson and others The tallest specimen in the pavilion is from the farm of I M Kinemson These oats were gathered from fields that yielded from fifty to sixty bushels to the acre Among the wheat exhibits are nice samples of white winter wheat by Fred Ellison John Hartl J I Living, ont C H Woutter James Stewart J R Graham, Patrick Graham and Thomas Brady We notice exhibits of Noah Island wheat from L Hent & and Caleb Cross exhibits of Fosse wheat by J G Hackett L I [illegible] Martin Robbins and H Kellogg Mole's white winter by John Myers and J R Graham Goose and Club wheat J T Apperson Arnold's Golden Medal L Clark The exhibit of timothy and clover grasses came from the farms of Seth Luelling Judge Randall and E P Rands There is a specimen of common peas twelve feet high of hemp fourteen feet high raised by John Schram and hops by Mrs Humphreys The display does credit to Clackamas county

MARION COUNTY

The people of this county are indebted to Mr E L Hibbard for selecting and displaying their samples He displays samples of grain in jars and sacks as well as in the sheaf There seems to be a large amount of white winter wheat raised by every one We notice samples of this variety from Matthew Small E L Hibbard G W Putnam Fred Kaser Frank Eagan and Sam B [illegible] Golden Amber by George Riches, Frank Eagan Alex Thompson Matthew Small and Frank Anderson White Russian by Alex Thompson and Milton [illegible] Australian Club Little Club and Bearded Club by E L Hibbard Oats—side oats by Frank Degonre Geo Riches E L Hibbard R C Geer Frank Anderson Fred Kaiser and Alex Thompson, Hopeton oats by Alex Thompson evergreen oats by J W Starmer black winter oats by Fred Kaiser and John Downing. Mr Hibbard has twenty three varieties of tame and native grasses among which is a surviving bunch of old Waldo hills bunch grass once so numerous, and several specimens of wild grasses from the head of the Mohawk which were never before exhibited The are worth seeing Three specimens of hops by E Phelps and Frank Blakerby of Silverton and J W Starmer of the Waldo hills grapes, by Walter Small corn stalk 11 feet high Hiawassee corn, with two ears 14 inches long raised by Frank Degnire of Silverton M Small exhibits fine samples of Merino wool Geo Dimick exhibits a collect on of corn oats rye millet Hungarian grass and very fine onions The fruits and vegetables were not yet arranged

MISCELLANEOUS EXHIBIT

In speaking of the miscellaneous exhibit the Salem *Statesman* says

C as Calvert is displaying as fine a case of millinery goods as can be seen anywhere

The handsomest thing in the pavilion is the elegant compound oval and rectangular silver mounted show case of J J Briggs containing a magnificent superior celluloid toilet case inlaid pearl handled brushes and Lundborg's perfumeries etc He also has a well arranged case of artists materials His enterprise is commendable and those who see his display will not soon forget it nor will they forget that J J Briggs keeps the banner drug store of Salem

The City of Salem Company and also the Salem Flouring Mills Company have a fine exhibit of flour

George Westerfield has a unique exhibit of his handiwork George is the master horse shoer of Oregon and not only shod all the fast and trotting stock for the fair but was also called to Portland to trim up the horses hoofs there during the recent races He exhibits fourteen or fifteen different styles of shoes and plates all hung on mounted pegs with a black velvet background all of which is enclosed in a black walnut frame Among the different styles of shoes which Mr Westerfield exhibits are running plates training shoes toe shoe (to protect the frog) trotting shoes with the weight in the toe draft shoe interfering shoes convex trotting shoe heavy road shoe and quarter crack plates etc They are very attractive George is not only a good workman but we believe he can shoe more horses in a day than any man in the state

O W Gray & Son of the Pioneer Oil Works have a good exhibition of boiled and raw linseed oil

GENERAL NOTES

Secretary Lenhart has made the following appointments of assistants who entered upon their duties yesterday and who are very diligent Chief clerk J T Gregg receiving clerk E J Lenox entry clerks Misses Addie Tribe Maria Darcy Lizzie Dearborn Bertha Moores Maggie Cooper and Messrs R R Elworthy J Bellwood Percy Willis and George Batterley

The judges stand and races were under the management of Messrs Wm Galloway M Wilkins and M Wallet the judges for the day Their decisions and rulings were eminently just and they very conscientiously discharged the trust imposed upon them

Many say that there is a larger attendance for Monday than they ever saw at the state fair before

Mrs J Condit of Turner is attending the fair. She has twenty varieties of dried fruits berries and vegetables displayed in a case of about twenty small boxes in a framework with a glass cover Mrs Condit will doubtless take several prizes

The entries were Sag Brush Sam owned by William Thompson of Painesville Sam is a bay gelding, 7 years old sired by Rifleman out of a dam of Lummux's sire

Jennie Mack owned by McKinney & Swick of Salem a 6-year old bay mare whose sire was got by Lob Roy

Lady Day owned by Dr Tuttle of Astoria a brown mare 6 years old by Woodbury dam by Lifleman

Honest John owned by E Adamson of Salem a bay horse 7 years old sire and dam unknown

Bogus a pretty sorrel gelding of 5 years, owned in Portland by F L Whalen Pedigree by Ophir dam by Imbrie's Hiram

M Shipp owned by Thomas Magee of Salem a sorrel mare 7 yearsold sire and dam unknown

Pools sold on the race about as follows Bogus generally the favor to at $5 Lady Day $8 Honest John $6 Shipp $2 and Jennie Mack $1 Pools were not sold on Thompson's Sam, as owing to excessive sickness he has been withdrawn during the forenoon Jennie Mack carried 141 pounds Bogus 115 Honest John 112 Lady Day 131 and M Shipp 110 In drawing for positions the pole fell to Shipp Lady Day 2, Jennie Mack 3d Honest John 4th and Bogus 5th The runners were started from the five-eighths mile post by Mr T G Hammond at the tap of the drum and no recall The judges were Col Nesmith J J Imbrie and Wm Galloway

All horses got off well together except the little brown mare Lady Day who was ten or fifteen feet behind Honest John quickly took the lead hotly pressed by Bogus and Lady Day almost immediately taking third place These positions were held until the last eighth of a mile when Bogus took the lead for a moment being the next instant passed himself by the little mare who went to the front like a shot out of a gun Unfortunately for her success Lady Day swerved to the very outside of the track and her rider had to pull her in to keep from a collision with the fence At this time Honest John might have won for he had lots of speed still left but he struck a little strip of mud and went to pieces within a few yards of the wire Bogus won with Lady Day less than a length behind and Honest John a close third Shipp and Jennie Mack came in neck and neck a few seconds later Time 1:05½

Though taking only second place it is a fact that Lady Day ran the three eighths of a mile faster than did the winner The track itself after last night's rain was not favorable for fast time

SECOND RACE

Running—Three fourths dash free for all Purse $300 $200 to first horse $100 to second

This was the best of the running races and the one in which the most interest centered as two well known Oregon horses were to participate The entries were Lost Boy entered by Thompson & McClure of Prineville Crook county a sorrel stallion 5 years of age sire by Geo Wilkes and dam by Rifleman Red Oak owned by James Stanley of Salem a 6 year old sorrel gelding sired by Red Oak and dam unknown

Jim Merritt owned by W G Boggan and Trade Dollar owned by J A Porter need but little introduction to Oregon people Porter's sorrel mare is now seven years old and in full health and vigor and the brown gelding Merritt gave every promise of holding all competitors level Pools sold at $20 for either Merritt or Trade Dollar as first choice the other two horses bringing $3 or $4 each

The start was made at the quarter post the same as in the previous race all getting off pretty evenly and Trade Dollar going to the fore within a few rods At the half mile post Lost Boy had overtaken and passed Trade Dollar with Jim Merritt still third and Red Oak fourth But Lost Boy lacked bottom and the sorrel mare again took the lead increasing her distance to the finish which she reached in 1 15¾ Jim Merritt also crawled up and passed Lost Boy taking second place The rider of Merritt claimed that Trade Dollar had fouled him and Porter's jockey showed where he had been struck in the face by the other's whip For this the driver of Merritt was fined $10

THIRD RACE

SALEM Sept 18 —[Special]—Third race running five eighths mile race for all two year olds purse $300 $200 to first and $100 to second There were two entries Dr Lodge's Jr chestnut stallion and Big Klickitat bay gelding The former is from the stable of John Young of Walla Walla and the latter from Happy Home farm W T This race created but little betting the stallion being the favorite and winning in 1 0¾

FOURTH RACE

The next race was for the stallion trotting stake mile heats best three in five for a purse of $500 There were two entries Jay Beach's Altamont and H G Hobson's Mount Vernon Pools before the race sold $100 to $50 in favor of Mount Vernon betting running high on all sides The first heat was won by Altamont in 2 32 Mount Vernon breaking badly The second heat was very tame Mount Vernon winning in 2.33 The third heat was the prettiest of the race Mount Vernon broke at the quarter pole Altamont taking the lead and keeping it to the close although hotly pushed Time 2 31¾ Pools now sold $20 to $8 in favor of Altamont a general feeling of insecurity being apparent among sporting men and nearly all hedging [illegible] who had until now driven his horse left the sulky for Masterson of Walla Walla who drove Oneika yesterday In the fourth heat Altamont took the lead but broke at the quarter pole losing a dozen lengths Mount Vernon trotted magnificently for half a mile and then left her feet past receiver Altamont going to the fore at the three quarters and winning easily in 2:30¾ the heat and race

It now being almost dark, the trotting race for three-year-olds was postponed until to-morrow

TO DAY'S PROGRAMME

Annual election—The election for officers of the society will be held to-day commencing at 9 A M and closing at 4 P M Place of voting will be at secretary's office.

Parade of horses—At 9 A M the grand parade of horses entered for premiums Parade under supervision of chief marshal

Trotting—At 1 30 P M 2 40 class three in five Purse $350 $200 to first horse $75 to second $25 to third Immediately after

Running—One and one half mile dash free for all Purse $600 $400 to first $100 to second

Annual address—At 7 P M annual address in building occupied by Young Men's Christian Association near railroad gate

KICKED BY A HORSE

SALEM, Sept 18 —[Special]—During the second running race to day L Day an attendant upon Honest John was kicked in the face by one of the horses and may possibly lose his left eye

NOTICE TO OREGON PIONEERS

SALEM, Sept 18

All members of the Oregon Pioneer association who desire to accompany the excursion party which is expected to leave Portland for the east by the Northern Pacific railroad on the 2d day of October 1883 may apply in person to the secretary in Salem for certificates up to Thursday evening the 27th inst

The officers of the railroad company require that each shall have a certificate signed by the president and secretary and also the proper signature of the excursionist The form of the certificate furnished by the railroad officers is as follows

OREGON PIONEER SOCIETY

PORTLAND Or —— — 1883.

I certify that Mr —— the bearer whose signature is written on the margin hereof is a member of the Oregon Pioneer society in good standing and is entitled to reduced rates of transportation for himself and female relatives from Portland Oregon to —— and return

—— Secretary —— President

For the convenience of excursionists the president and secretary of the association will be at the Holton house in the city of Portland on Saturday the 29th inst when members may receive the above certificate

No certificate can be issued unless applied for in person by the member who desires to use it It is important that members should be in Portland on Saturday the 29th inst as it will not be possible to receive certificates and procure tickets in one day

J W NESMITH President

T B ODENEAL Secretary

SABBATH DESECRATION

PORTLAND September 1? 1883

TO THE EDITOR OF THE OREGONIAN

Under Brief Mentions of to-day's OREGONIAN I note the arrest of a Chinaman for selling groceries on Sunday. Why only one? Are not all the Chinese stores of this city open on Sundays to transact business?

Allow me to call the attention of the proper authorities to another disgraceful nuisance and a still more dese[cr]ation of the Sunday Why are Chinese swill gatherers and Chinese laundrymen allowed to collect swills and soiled linens on Sunday afternoons? I had the opportunity to notice three swill wagons go the rounds in the block where I reside inside of one hour on yesterday (Sunday) afternoon As the city yet contains some of the Northern Pacific railroad guests such proceedings must have a very impressive effect upon them Respectfully

P W

The writer of the above evidently feels deeply on the subject of Sabbath desecration It is a pity that he did not include in his denunciations the peddlers of swill beer whose desecrations of the Sabbath are at least as damnable and certainly more numerous and persistent than those of Chinese swill gatherers and washmen

Full Particulars of the Alleged Polygamist's Social Relations

James A Redfern who was arrested by Officer Barry Monday night on a charge of polygamy is still confined at the city jail He appeared in the police court yesterday afternoon but his case was continued till to day He has employed Col Effinger to defend him

Full particulars in regard to Redfern's elopement will be found in the following special dispatch to the New York *Times* of the 12th from Toronto The upper society circles of this city are much agitated over the elopement of James A Redfern a prominent commission merchant and society man with Maggie daughter of Robert Spratt also a wealthy commission merchant occupying a high social position Redfern is the son of a leading light on the English turf and settled in Buffalo some years ago While there he entered into several heavy deals on the Chicago market and lost heavily Being a fine handsome fellow of pleasing address he was a favorite with ladies in the upper class and soon won the heart and hand of the adopted daughter of Chandler J Wells a winsome lady and belle of the city Two or three years ago Redfern met with several reverses in speculating and removed to this city bringing his wife with him and occupied a large and fashionable house in the resident portion of the city Here he received an entrance to the best society and soon became so popular that no social event was complete without him He was a regular attendant at the Government house receptions In the ordinary course of business Redfern became acquainted with the father of his victim and received an intimate footing in the family which consisted of five daughters and a son

The families became very intimate and for the last twelve months Redfern never appeared on the streets or at any public entertainment without Maggie Spratt and her two sisters This at first did not cause any suspicion but after some months various circumstances trivial in themselves arose which gave the tongue of gossip food for whispers that all was not right between Redfern and Maggie The position of the parties in society however was such that the rumors were treated as idle gossip by some and when very cautiously referred to in the presence of their friends were indignantly denied The abused wife was awakened to the treachery of her friend to whom she had confided every secret by the sudden disappearance of Redfern from the house about a week ago At the same time the Spratt family was thrown into great excitement by the sudden disappearance of Maggie and for some days no trace of her could be found It has since been ascertained however that the couple with the coolest audacity had remained at a prominent hotel in this city as man and wife for two days before leaving for Buffalo near which place Redfern owns a farm

As soon as his deserted wife learned the true state of affairs she left for Buffalo ostensibly to see her father but in reality to escape the annoyance which the heartless conduct of her husband would cause her The friends of the infatuated young lady immediately took steps to learn her whereabouts but they refuse to give any information upon the subject Mrs Redfern who has always lived happily with her husband has taken her children with her

Mrs Redfern was, before her marriage Miss Jennie Wells, an adopted daughter of Chandler J Wells of the Wells-Fargo Express Company Wells is a very rich man

When the Grand Duke Alexis of Russia visited Buffalo in 1870 Miss Wells was about 18 years old and her beauty attracted the duke who paid her marked attention She was a belle in society for several years In 1875 she went to Europe and met Redfern in Brighton, Eng and before her return she was engaged to be married to him The following year Redfern came to Buffalo and the marriage took place in grand style

MISSOULA NOTES.

[FROM THE OREGONIAN'S LOCAL CORRESPONDENT]

MISSOULA M T, Sept. 15

Hon W R Bass is sacking fifty tons of silver ore to ship to Omaha for reduction

Work still continues upon the Curlew and the Elizabeth with the most flattering results

Advices from all parts of the Bitter Root valley state that the wheat crop is greater than ever before known in this county

Several new brick residences are in the course of construction prominent among which are those of George B Hartman and the fine two story house of Fred E [illegible]

Work on the new bridge across the Missoula river progresses finely The trestle work on the island is nearly finished and the two spans across the two main currents will soon be made When finished the bridge will be a substantial structure about 600 feet in length

Parties are now resorting to the shores of the beautiful Flathead lake in search of health and pleasure We predict that the Flathead lake with its magnificent mountain scenery and abundance of fish and game will in a few years become a popular summer resort

The commissioners appointed by congress to treat with the Indians for the ceding of their lands has so far proved a failure and it seems that a few wretched Indians will continue to hold the best part of the agricultural lands of Missoula county from settlement for a number of years longer

A Chinese leper has been found in the Chinese quarter of the town He has been in this country a number of years and in Missoula the past eight months until the last two months he has been employed as a servant in the hotels and eating houses of the town Although the disease is well developed one finger being partly gone one heel ulcerated sores on his toes and scaly spots on his face no one until the past few days was aware of the presence of the disease

BROWNSVILLE ITEMS

[FROM THE OREGONIAN'S LOCAL CORRESPONDENT]

GANTENBEIN D. D., Rector, or PROF. R. SCHIEDT, Principal, 31 N Eleventh st.

The Daily Oregonian.

WEDNESDAY MORNING, SEPT. 1[illegible] 1883.

AFTERNOON DISPATCHES.

Vandervoort Heard from.

PITTSBURG, Sept. 17.—A prominent member of the Grand Army of the Republic received a letter to-day from Paul Vandervoort, ex-commander-in-chief of the Grand Army of the Republic in which the recent action of Postmaster General Gresham in removing him from the service is reviewed at length. Vandervoort admits that he was absent from duty 365 days of the fiscal year but says this was by the permission of Postmaster Generals Howe and Gresham. Under Howe his pay went on, but since Gresham came into office, he has only been paid for time on duty. In any event he says this charge has been withdrawn. It is now urged against him that he went to Idaho contrary to instruction from Division Superintendent White. This charge he denies, and says his visit to Idaho was for the purpose of instructing the men on the new routes. He claims his removal was without investigation.

BARK FOUNDERED—NUMBER LOST.

HALIFAX, Sept. 17.—The bark Brittania was lost on Sable island, and the captain's wife and three children and the crew were drowned, including first and second mates. The captain and the remaining three seamen have arrived in the Newfield. The survivors were three days on the wreck when rescued. They had attempted to reach the shore on a raft, when a heavy sea swept them all off including the captain's wife and three children. Three sailors were saved, and the captain was able to reach the raft again, the latter carrying with him two of his children but they died shortly after.

Suit for Heavy Damages.

CINCINNATI, Sept. 17.—The *News Journal* publishing company was to-night served with papers in a suit brought by General Andrew Hickenlooper, ex-lieutenant governor of Ohio, who sues to recover $250,000 as damages for publishing a libel on the 15th of September. The *News-Journal* publishing company published the scandalous article in question, but did not name any man in its report of the scandal, but said the man in the case had held high official position.

Steam Barge Foundered.

CLEVELAND, O., Sept. 17.—A *Herald* special reports that the steam barge Oakland, lumber laden from Bay City for Erie, foundered at 5 o'clock this morning off Conneaut. Captain George D. Stevens, second engineer Robert S. Hanna, Charles Dickson and wheelman, name unknown, are believed to be lost.

Not so Serious.

COUNCIL BLUFFS, Sept. 17.—Governor Sherman's injuries resulting from his accidental fall on the stairs of the Pacific house in this city Saturday evening, proves to be less serious than at first reported. He speaks to-morrow at Harlan and thereafter will continue to fill his regular appointments.

Nominated by Acclamation.

BOSTON, Sept. 17.—The present secretary of state, treasurer, auditor and attorney general, will be nominated by acclamation by the republican convention. There is opposition to Pierce for governor owing to his vote against counting Louisiana for Hayes.

Outrageous Robbery.

DANVILLE, Va., Sept. 17.—Three men entered the house of Washington Odell near Ridgeway, shot Odell and threatened to kill his wife if she did not give up all the money about the premises. She refused and the men forcibly took $2000.

Corean Ambassy.

NEW YORK, Sept. 17.—The Corean embassy arrived this evening and will be received to-morrow at the Fifth Avenue hotel by President Arthur.

THE EAST SIDE.

A TOUGH BOY.

A boy came into the city early Monday evening leading a cow, which he disposed of to Otto Strube, the butcher, for $30. Subsequently Bill Few, who resides in Powell's valley, and who had heard that a boy and a cow had been traveling from that direction, inspected the bovine and recognized it as the property of Mr Kelly, who resides near the Pleasant Home postoffice. Suspecting crooked business he started in search of the boy whom he finally discovered at the Palace theater having what he supposed was a good time on the proceeds of the cow sale. By dint of moral suasion and consoling advice he persuaded him to leave his pleasures(?) and return to this city, when he was handed over to the tender mercies of the police and unceremoniously jugged. Complaint was made against him for grand larceny and he was brought up for examination yesterday morning before the recorder. He plead guilty to taking the cow from Mr Kelly's place, but in explanation of his offense said he thought the animal belonged to a man named Roark against whom it appears he entertains some malice. The recorder, however did not see fit to excuse him on this account, and committed him to the county jail in default of $250 bail. His name is George Driver, is aged 16 years, and says he lives wherever he hangs his hat. In conversation with the marshal he confessed, without any apparent concern that he took the cow thinking it was Mr Roark's, and his disappointment in finding the animal did not belong to that individual seemed to concern him more than the doom which awaits him. One of his first acts after disposing of the animal was to purchase a nine shooter revolver and upon discovering the duplicity of Mr Few who caused his arrest, said he would rather have gone to jail for using this weapon on him than simply for "stealing a cow." The pistol and about $7 in money were found upon his person when arrested so that he was making pretty good headway and his arrest probably has saved him more serious trouble. It was also a narrow escape for the cow who has thus been spared a premature death.

A TOUGH GIRL.

Dr Dav. Rafferty was summoned yesterday to attend a two-year old daughter of Mr J. H. Martin one of the proprietors of the sash factory on J street who had fallen from the second story window of his residence on G street which is known as the Bartel house. The distance the child fell is between twenty and twenty five feet and considering this fact the doctor had little hope of his services being of any material good. He was much surprised however at finding the child had sustained no apparent injury either internal or external and was suffering no pain or uneasiness except from a slight concussion. He went from the child to the place where she had fallen, and found an indentation in the ground which might have been produced by either the head or the knee, and returning to the patient, re-examined the head and twisted and bent the limbs but still without discovery of injury or pain. Concluding his services were no longer necessary, he gave the child a mild opiate and left it in blissful slumber. The marvellous escape of the child is rendered more strange by the fact that she fell within a few inches of a garden stake several feet high thus narrowly escaping a horrible death by impalement.

NOTES.

The interior of the M. E. church is to be greatly improved.

The new police officer, Slim Stafford went on duty for the first time last night.

The contract price for the bridge on Fifth street is $6042. It is to be 120 feet long and 36 feet wide.

A preliminary meeting was held last night by several young men, toward the organization of a social club.

Professor George W. Jackson elucidated the rudiments of the tonic-sol-fa method of vocal music at Heppach's hall last evening to a good audience.

The Crystal Springs Water Company claim to have a supply affording 6,080,000 gallons of water every twenty four hours—not four hours, as erroneously printed yesterday.

The Morning OREGONIAN failed again on Monday to connect at East Portland by mail, and took its periodical trip to Albany before reaching the East Portland postoffice. This thing is getting monotonous.

THE COURTS.

STATE CIRCUIT COURT.

State of Oregon vs Joseph Dunn—No. 1—Arraigned and Wednesday morning to plead.

TRADE AND COMMERCE.

TUESDAY, Sept. 18.

While to-day has been marked by nothing of unusual interest, yet the same large steady trade is doing. Another lot of hops were received from Puyallup for shipment to New York state. It is probable that these are to be used for seeding purposes, as their destination is in the heart of a hop growing region. Aside from this no new hops are coming in. Outside buyers are beginning to put in appearance with all sorts of discouraging reports of large crops elsewhere. This programme is repeated yearly, but as few local speculators do anything the grower has only the choice of accepting what is offered or holding. Last year's experience is by no means likely to be repeated, yet a very good price is considered quite certain to rule.

The aggregate supply of grain in sight Sept. 8 in the United States and Canada exclusive of California and Oregon was 20,714,250 bushels wheat and 10,260,800 bushels corn. At the same period last year the figures were 11,565,700 and 5,587,800.

The American consul at Auckland thinks that so far as the part to be taken by Australia in the meat trade of the future New Zealand will do most of the shipping. The export of frozen meat from New Zealand during 1882 amounted to 15,244 cwt. valued at $96,995. The export for 1883 is expected to be much larger. The canned meat trade, which showed a marked falling off last year, promises to be much larger. The New Zealand government is taking an active interest in the matter, and is doing all it can to promote the industry.

FREIGHTS—The British iron bark Scottish Tar, 1031 tons, was chartered to-day by Sibson, Church & Co., particulars withheld. While freights exhibit a weak tone there are not wanting those who express confidence that a more healthy market is not far off. The river is again clear of disengaged iron tonnage, and that soon to arrive comes under charter. At San Francisco a wooden spot vessel takes 40s direct, which is the only spot business reported. Iron now arriving there have 55@60s charters for orders.

WHEAT—To-day's London advices report an additional 6d decline while New York and Chicago are weaker. San Francisco shows sympathy to a slight extent while the market seems not to be affected. Buyers have not altered their bids and still continue to pay an advance on them. A lessened business is reported from Walla Walla to-day, and as mills gather in what they want shippers will have more room to operate. That every ton of wheat bought now is at a direct loss, present state of markets considered, is certain, and to one looking on the buying on a future rise appears speculative to the full meaning of the word. True there are ships that have to be provided for, but purchases have exceeded these requirements. This state of affairs is highly satisfactory at present to the farmer, who gets a good price for his grain, but when the change comes, as it must and will, he does not fare as well.

MILLSTUFF—Local receipts show a marked increase, and with California receipts stocks are quite up to requirements.

OATS—The market shows no change from yesterday, but receipts promise larger.

FLOUR—Local stocks as well as the call are light and mills show no anxiety to push the market, and those who are grinding send very little to this market.

HIDES—Receipts are quite large and while the market shows a good business, values are unchanged.

BUTTER—Market firm at 37½@40c, with every prospect of early advance. Stocks extremely light as regards good to choice.

POULTRY—Chickens trifle firm and $5@5 50 is possible for desirable coops. Ducks in request at $7@8. Geese neglected at $7@8.

EGGS—27½c is generally quoted to-day and the closing out of old stocks is slow work.

PRODUCE RECEIPTS—Past 24 hours: 6159 ctls wheat, 172 bbls flour, 417 ctls oats, 67 bxs butter, 72 ctls millstuff, 221 sks potatoes, 612 lbs wool, 3425 lbs hides, 23 bxs eggs, 8190 lbs hops, 48 bxs fruit, 10 bxs butter, 75 bls hay. Also 8653 ctls wheat, 150 bbls flour from the eastern section.

SALMON SHIPMENTS—Per str Victoria Sept. 14, Columbia Cannery Co. 1025, Pacific Union 390, Williams 300, [illegible] total 2725 cases.

Per str Columbia Sept. 15, Megler 635, Pacific Union 300, Washington 600, Seaside 880, Cutting 550; total 2965.

SHIPPING NOTES.

The Queen of the Pacific reached San Francisco at 6 P. M. yesterday, and the Columbia at 7 45 A. M. to-day.

The State of California sailed from San Francisco to-day.

The St. Lucie will resume discharge of cargo to-morrow.

River marked 3 feet 6 inches at noon to-day.

The British iron ship Amana, 1299 tons, comes to this port from Wilmington to Sibson Church & Co.

The British ship Banca reached Sydney August 18 from Glasgow.

The British bark Scottish Bard reached Brisbane August 17 from Liverpool.

Goss Sawyer & Packard the Bath shipbuilders have contracted to build two steamers for the Southern Oregon Improvement Co. They are to carry freight and passengers between Coos bay and San Francisco and will register about 1[illegible]0 tons each. One is to be completed January 1 and the other March 1. The report that the contract would be let was published some weeks ago.

The bark Wm H. Besse left Batavia July 5 for the island of Amsterdam where she would dock.

Captain McAllep having been permanently appointed Puget sound agent for the Underwriters, is having a $3000 steam launch built for service on the sound.

Port Elizabeth dates of July 27 say nothing had been heard of the boat from the ship Freeman Clark containing the master and a part of the crew. The ship had gone to pieces, the cargo washing up along the beach.

The bark Wealthy Pendleton, previously reported, foundered in 49 south 45 west. Crew landed at Pernambuco August 18.

Private advices received at Portland late to-day state that the Eskdale had again returned to Liverpool.

NEW YORK CLIPPER FREIGHTS.

NEW YORK, Sept. 18.—Clipper freights are quiet, and tonnage although very scarce is not in urgent demand owing to a slow movement of freights. Rates are gradually stiffening with no new engagements in this trade. The St. Nicholas will clear to-morrow leaving only the St. Francis loading.

ENGLISH GRAIN MARKETS.

NEW YORK, Sept. 18.—*Post*: Foreign grain markets to-day are inactive. At Liverpool wheat is depressed and corn neglected. No 2 Chicago spring wheat was 1d per cental lower and corn ½d lower. Floating cargoes of wheat are very heavy. Red winter wheat for prompt shipment was 6d lower. For wheat on passage business was neglected and there was nothing doing.

Markets by Telegraph.

MARVELOUS STORY

TOLD IN TWO LETTERS.

FROM THE SON: "28 Cedar St., New York, Oct. 28, 1882.

"*Gentlemen*: My father resides at Glover, Vt. He has been a great sufferer from Scrofula, and the inclosed letter will tell you what a marvelous effect

Ayer's Sarsaparilla

has had on his case. I think his blood must have contained the humor for at least ten years, but it did not show, except in the form of a scrofulous sore on the wrist, until about five years ago. From a few spots which appeared at that time, it gradually spread so as to cover his entire body. I assure you he was terribly afflicted, and an object of pity, when he began using your medicine. Now, there are few men of his age who enjoy as good health as he has. I could easily name fifty persons who would testify to the facts in his case. Yours truly, W. M. PHILLIPS."

FROM THE FATHER: "It is both a pleasure and a duty for me to state to you the benefit I have derived from the use of

Ayer's Sarsaparilla.

Six months ago I was completely covered with a terrible humor and scrofulous sores. The humor caused an incessant and intolerable itching, and the skin cracked so as to cause the blood to flow in many places whenever I moved. My sufferings were great, and my life a burden. I commenced the use of the SARSAPARILLA in April last, and have used it regularly since that time. My condition began to improve at once. The sores have all healed, and I feel perfectly well in every respect—being now able to do a good day's work, although 73 years of age. Many inquire what has wrought such a cure in my case, and I tell them, as I have here tried to tell you, AYER'S SARSAPARILLA. Glover, Vt., Oct. 21, 1882. Yours gratefully, HIRAM PHILLIPS."

AYER'S SARSAPARILLA cures Scrofula and all Scrofulous Complaints, Erysipelas, Eczema, Ringworm, Blotches, Sores, Boils, Tumors, and Eruptions of the Skin. It clears the blood of all impurities, aids digestion, stimulates the action of the bowels, and thus restores vitality and strengthens the whole system.

PREPARED BY

A POLICEMAN'S DUTY.

Policeman Ed. K. Heath, 34 North street, Portland, Maine, May 11, 1883, writes:

"I have been troubled for a good many years with inflammation of the bladder, dating as far back as during the time I was in the army. I suffered with dull heavy pains in the back and kidneys too intense for me to describe, and tried several remedies that were recommended and was examined by one of our best physicians, who pronounced it inflammation of the bladder, and I went to the hospital for treatment, but all medicine and treatment seemed to fail. I was recommended to try Hunt's Remedy, as it had been used in several such cases here in Portland and vicinity. I purchased a bottle at Smith's drug store here, and found after using the first bottle that it relieved me greatly, and after using six [illegible] that it did me more good than all other [illegible] and treatment [illegible]. And to add to my good judgment Hunt's Remedy [illegible] to close [illegible] that my wife has been for a long time troubled with weakness and inflammation of the bladder—with a [illegible] of other diseases peculiar to women [illegible] two bottles she has been completely cured [illegible] my wife is loud in praise of [illegible] and I would highly recommend it to all who are suffering from kidney diseases or diseases of the bladder."

PORTLAND, Me., May 11, 1883.

I hereby certify that I know the facts of the above case of Mrs. E. K. Heath, and that they are correctly stated in the foregoing [illegible] complaint [illegible].

A. W. SMITH, Druggist, Cor. Portland and [illegible] sts.

NO MATERIAL CHANGE.

This is to certify that I have used Hunt's Remedy for the kidney complaint and received much benefit from its use.

I have been afflicted about one year and received treatment from the local physicians and used a number of so-called specifics without any material help. I am happy to say after using three bottles of Hunt's Remedy I was completely cured.

I never fail to recommend it and you are at liberty to use my name in any manner you may desire.

HENRY DOYLE & CO.,

517 and 519 Market St., San Francisco, Cal.

Swift's S. S. S.

I have known and watched the use of Swift's Specific for over 50 years, and have never known or heard of a failure to cure Blood Poison when properly taken. I used it on my servants from 1850 to 1865 as did also a number of my neighbors, and in every case that came within my knowledge it effected a cure. In all my life I have never known a remedy that would so fully accomplish all what it is recommended to do. H. L. DENNARD, Perry, Ga.

I have known and used Swift's Specific for more than twenty years, and have seen more wonderful results from its use than from any remedy in or out of the pharmacopœia. It is a certain and safe antidote to all sorts of Blood Poison. J. DICKSON SMITH, M. D., Atlanta, Ga.

The Great Drug House of Chicago.

We do not hesitate to say that for a year past we have sold more of Swift's Specific (S S S) than all other Blood Purifiers combined and with most astonishing results. One gentleman who used half a dozen bottles says that it has done him more good than treatment that cost him $500. Another who has used it for a scrofulous affection reports a permanent cure from its use. VAN SCHAACK, STEVENSON & CO.

$1,000 REWARD!

Will be paid to any chemist who will find on analysis of one hundred bottles S. S. S. one particle of Mercury, Iodide Potassium or any mineral substance. THE SWIFT PRESERVING CO., Drawer 3, Atlanta, Ga.

Write for the little book which will be mailed free.

Price—Small size $1 per bottle. Large size (holding double quantity) at $1 75 per bottle. All druggists sell it.

For sale by HODGE, DAVIS & CO., Portland.

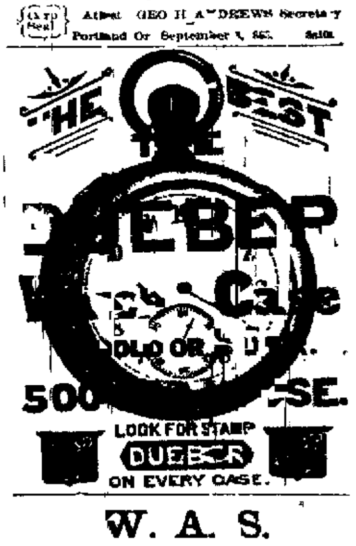
Portland, Or., September 5, 1883. 5d10



W. A. S.

WOLFE'S

Schiedam Aromatic Schnapps.

As a general beverage, necessary corrective of water rendered impure by vegetable decomposition or other causes, as limestone, sulphate of copper, etc., the AROMATIC SCHNAPPS is superior to every other alcoholic preparation. A public trial of over thirty years duration in every section of our country of UDOLPHO WOLFE'S SCHNAPPS, its unsolicited indorsement by the medical faculty, and a sale unequaled by any other alcoholic distillation have insured for it the reputation for salubrity claimed for it. For sale by all druggists and grocers.

UDOLPHO WOLFE'S SON & CO.,

18 Beaver St. New York.

C. B. FETY, SEAL ENGRAVER,

98 Oak street, bet. First and Second.

SWAYNE'S PILLS

Important to the Sick! Symptoms leading to disease [illegible] days of suffering—perchance death. Symptoms of impure blood, costiveness, irregular appetite, headache, sour belching, soreness in back, breast and side, heat, dizziness, bad color to stools and urine, fever and cold sensations, yellow skin. SWAYNE'S PILLS cure by gently removing all corrupt matter, [illegible] and nourishing the system. Twenty-five cents (or stamps), box of 30 pills, 5 boxes $1, at Druggists or by mail. Address DR. SWAYNE & SON, Philadelphia, Pa.
